GIVES TO A BLACK EYE

Capt. Ray Makes an Official Report on the Alaskan Country.

THE NEED OF ROADS

He Would Promote the Industry of Agriculture on the Lower Yukon.

Washington, Feb. 20.—Secretary Alge has transmitted to congress a complete report on the relief work of the war department in the Klondike country, undertaken under act of congress as a result of the reports that extreme distress among the miners followed the influx to the gold country during 1897-98. It embraces the detailed reports of Capt. P. H. Ray and Lieut. W. P. Richardson.

Aside from details of the relief work, Capt. Ray's last report, dated May last, contains the following interesting statement:

"I deem it of the greatest importance for the development of the country that roads should be opened, so as to enable the people to reach the gold country not only from the Yukon to the coast, but in our own country, which is of the greatest importance to get into the interior with their supplies. Under existing conditions persons can enter the country only by the one great highway the Yukon river—and they cannot hope to be landed at any point in Alaska earlier than July 1.

The gold-bearing districts are from 50 to 100 miles from the main stream. There are not any summer trails except foot trails, and provisions and tools can only be transported on the backs of men.

"I don't find anything either in Alaska or Northwest Territory to justify the great rush of people to that country, or the enormous investment now being made in transportation, trading and mining companies. In Northwest Territory no discoveries of extraordinary richness have been made since that of the Klondike, and the claims are almost entirely confined to Bonanza, Eldorado, Danville, Hong and Sulphur, with a few claims on Bear creek and this district all rich claims are well known and held at very high prices, and while the whole country has been staked it has been done for speculative purposes, and no work is being done except such as is necessary to hold a title and they can be sold to the unwary newcomer or dispossessed of in the states for corporation schemes.

"Capt. Constantine of the Northwest mounted police is my authority for denouncing the movement as a fraud. In the absence of any other industry, except cutting wood for the river boats, I do not see anything in the future for over 90 per cent of the people now flocking to the country but disappointment and suffering. About 100,000 men are employed at \$1.50 per hour find that, after deducting the price of food, packing, candles, etc., they do not net to exceed \$2 per day, and they tell me it is barely enough to tide them over the idle season.

"Up to date no paying mineral lodes of either gold or silver have been discovered in North Alaska, so far as known. I am now fully satisfied that in the near future Alaska will be a country of great wealth, but the development will necessarily be slow, owing to the climatic conditions.

"I recommend the early introduction of horses, mules and cattle, and extra inducements should be held out for the development of agriculture in the valley of the lower Yukon especially. Wild hay can be successfully cultivated as well as potatoes, corn and all the more hardy garden vegetables, all of which will be required for many years to meet the local demand, and by reducing the cost of transportation and food, render it possible to profitably work a large percentage of the mines now lying idle.

"But few of the people now entering the northern part of the territory will ever become a factor in its permanent development. They must pass away before the time when United States wealth of the country will become known and developed. To promote this I recommend that several expeditions be sent out, put in the field and a thorough geographical and geological exploration of the country be made, so that all the ordinary means will be able to engage in the work of prospecting and mining. At present it requires a considerable capital to first explore the country for a practicable route to transport supplies before any work can be done in prospecting.

"The ruling rate of interest at Dawson is from 10 to 12 per cent per month, which is the best exemplification I can give of the speculative condition of the finances of that country."

A FACTORY FIRE.

A Loss of \$300,000 to the Wisconsin Chair Company.

Port Washington, Wis., Feb. 20.—Last night's fire, which totally destroyed the plant of the Wisconsin Chair company, covering three blocks and laying waste three additional squares, was finally brought under control shortly before 2 o'clock this morning. The loss to the chair company will be about \$300,000, fully covered by insurance. The loss of other property will amount to about \$50,000, partially covered by insurance. The small losses were sustained by about thirty other individuals.

The Wisconsin Chair company was the largest manufacturing concern in the town and gave employment to about 600 men. The fire originated in the veneering department from some unknown cause.

The latest estimates on the loss of last night's conflagration bring the figures up to \$600,000. Of this amount \$250,000 is on the property of the Wisconsin Chair company, the balance falling on the rest of the business and residence section of the burned district.

Michael J. Hackett, pianoman of Engine Company No. 4, Milwaukee, was probably fatally injured from bricks falling on him while fighting the fire. He was taken to the Wisconsin hospital, where he was also injured from the same cause, though his injuries are not considered serious.

A STEAMER ABANDONED.

The Cardinal's Crew Deserted Her After Great Hardships.

Baltimore, Feb. 20.—The Lord line steamer "Lord Charlemont," Capt. McVicar, from Antwerp, which arrived here this morning, had aboard the crew of the British steamer Cardinal, of Newcastle, which was abandoned Feb. 15 in latitude 49 north, longitude 60 west. The Cardinal sailed from Antwerp for Antwerp Feb. 1, with a cargo of lumber and timber on deck.

Norfolk Feb. 8 and sailed the next day. Soon after getting to sea she encountered terrible weather and was driven back, carrying away her bulwarks and flooding her hold. On Feb. 14 her crew endeavored to reach the shore, but were driven back by heavy seas and hunger, and on the morning of the 15th, when the Lord Charlemont was in the vicinity of the abandoned steamer, the Cardinal's crew was rescued.

Mr. Charles Kemp, the Cardinal's commander, and his crew of twenty-one landed on the shore and reached the Lord Charlemont in safety, after which the boats were abandoned.

THE BONDS OF CUBA

Scheme on Foot to Have the United States Guarantee Them.

MONEY FOR TROOPS

It Is Proposed to Issue New Bonds For Seven Millions.

Washington, Feb. 20.—Efforts are making with every prospect of success to reconcile the radical element among the Cubans to the proposition of the United States government to pay the soldiers of the Cuban cause \$3,000,000. This is expected to be accomplished through a rather sweeping authorization by the United States government for the incurrence of a considerable loan to make good the deficiency between the sum the United States agrees to pay to the troops, and the sum the Cuban leaders believe to be the smallest that can be paid with benefit and due regard to justice. So far the proposition has not taken official shape here, but the administration has quietly sounded by the Cuban contingent, who have expressed gratification at the prospect.

Gen. Gomez himself is expected to bring the plan formally when he begins his conference with Gen. Brooke in Havana. Gomez arrived today at Matanzas, making his way very slowly towards the capital. What is proposed is that the United States shall sanction the floating of bonds by the Cuban municipalities or the United States. The municipalities are to set aside a certain proportion from the receipts from customs and other sources of taxation to meet the bonds.

In addition to this the United States government is to be required to sanction the redemption of the bonds from the receipts of the bonds issued in aid of the Cuban rebellion to the amount of \$2,000,000.

Data, it is stated here, will be produced by the Cuban assembly to show that every cent of this sum was expended in legitimate war expenses.

TO PAY SPAIN.

House Committee on Appropriations to Report the Bill Favorably.

Washington, Feb. 20.—The house committee on appropriations today ordered a favorable report on the bill to pay Spain \$20,000,000 for the Philippines. An amendment declaring the policy of the government toward the Philippines was defeated by a party vote. Chairman Cannon was directed to call up the bill today under suspension of the rules.

A special meeting of the committee was held at 11:30 to pass on the \$20,000,000 appropriation. A bill by Mr. Cannon provided this appropriation without condition.

Another bill by Mr. Gillette, of Massachusetts, supporting the Republican policy of the government toward the Philippines. The Gillette bill was not acted on.

Mr. Dockery (Dem.), of Missouri, offered an amendment combining force of the Gillette bill and the Cannon bill. It declared any disposition or intention by the United States to exercise permanent sovereignty, jurisdiction or control over the Philippines, while asserting the right to acquire a stable form of local government and then leaving it for the Filipinos to administer.

The Dockery amendment was defeated by a party vote. The Democrats and Bell supporters opposed the amendment. Mr. Dockery stated that the amendment would be carried to the floor of the house and an effort made to add the declaration of policy.

KILLED HER BROTHER.
A Row Over Money Matters Results in a Death.

St. Joseph, Mo., Feb. 20.—Thomas O'Neill, a butcher employed at Swift's packing house in South St. Joseph, was literally cut to pieces last night by his two younger brothers, Edward and Jack. They lived together, Thomas being married. They had a dispute over money matters, which grew to a quarrel. The dead man was stabbed twice in the heart. His body is covered with knife wounds. Edward was badly cut in the head. Jack O'Neill is a one-legged man, and he did the killing in self defense. Both brothers are under arrest.

SENSATIONAL SUICIDE.
A Veteran Kills Himself in His Daughter's Presence.

Ypsilanti, Mich., Feb. 20.—After a terrible struggle in his front yard with his eldest daughter, who is mute, William Clegg, a veteran and pensioner, committed suicide today by gassing his throat. The girl wrenched the razor from her father and threw it as far as she could, but he raced ahead of her, got the weapon, and quickly sank dead. His health had affected Cory's mind.

ITALIAN BARK WRECKED.
Three Sailors Drowned and Two Died From Exposure.

Nassau, N. P., Feb. 20.—The Italian bark Barbara Luigi, Capt. Scotta, from Pernambuco, was wrecked on the coast of Nassau on Feb. 4 on the Little Bahama bank and proved a total loss. The captain and eight of the crew of the bark have arrived here. Three of the crew were drowned and two died as the result of exposure to the weather.

Mr. Dwyer and his bride will sail for London March 4. Mr. and Mrs. Dwyer were accompanied by Ted Sloan, Dwyer's traveling companion.

NEW TOWN IN ALASKA.

Taku Will Be the Terminus of a New Railroad.

Tacoma, Feb. 20.—Engineer J. T. Jones has returned to Juneau from a surveying trip over the Taku trail to the district. He surveyed the route to a new town, which will be called Taku. It is advantageously located on Taku bay, four miles above the mouth of the Taku river, about twenty-five miles from Juneau and is expected to become the ocean terminus of a railroad in which Eastern capitalists are interested. This road is to traverse the Taku valley and extend to the Klondike country.

What Do I Know About It?

Thought I knew it all—but I didn't. I am learning something every day. Glad to tell you what I do know.

Ever notice a man suddenly place his hands on his hips? Watch his face contract with pain? Know the reason why he does it? Ask him about it. He will tell you 'tis the result of years of hard work, his back has given out, wouldn't stand the strain any longer, aches nearly all the time, sudden twinges of pain in the back make his life almost unbearable. What have I done for it? Oh! I have rubbed it with liniments until I am nearly raw, worn plasters for months at a time. No! I'm too old now to be cured. Here is a case where age and experience are wrong; an opportunity to help a suffering fellow being. Tell him where he's wrong, explain how the aches and pains of the back come from disordered kidneys, and to cure the back you must reach the kidneys. Tell him about

Doan's Kidney Pills

and the thousands of Duluth backs that have been cured. Don't expect a man of his years to take your word for it or our word for it; let him investigate the experience of his neighbors. DOAN'S KIDNEY PILLS will stand on their Duluth record, and any kidney sufferer can find plenty of home proof like the following:

Mr. Henry Hilde, police officer at Lakeside, residing at 434 London road says: "I have no hesitation in recommending Doan's Kidney Pills to anyone who is at all troubled with their kidneys or suffers from pains through the loins or from the effects of colds settling in the kidneys. An officer's work necessitates his being exposed to all kinds of weather. A few years past I had attacks whenever I caught cold and a heavy aching pain developed across my loins and the kidney secretions became frequent and unnatural. Otherwise I have always enjoyed the best of health. Seeing Doan's Kidney Pills highly recommended I procured a box at the Duluth Drug Company and began using the remedy. The trouble was removed almost at once and since finishing the treatment I can say that Doan's Kidney Pills are prompt in relieving all such cases."

WHY IS ELECTRIC LIGHT BEST?
Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Prof. Thomson states one cubic foot of gas contains as much oxygen as four adults.

CLEAN! It causes no discolorations of furnishings and decorations in homes.

SAFE! An electric bell work, no danger of suffocation.

CHEAP! By saving a little care in turning off lights when not in use it is cheaper than any other illuminant.

days and days had passed. And then he woke up.

The candle was just passing the pain tree—Mohammed had been asleep about four seconds.

Someone told the above story the other night after the talk had been given on psychology, mesmerism, thought transference—the occult in general. And then one young fellow, of 25 or thereabouts, told this tale:

"I had a dream the other night that since I had it has kept me awake thinking. It was a mixture of the Faust idea and of my own master passion—money."

He had gone through a pretty hard day, and before dressing to go out that evening I thought I'd lie on the couch for a minute—lie full length on my back and get a good rest that way. As I lay there I noted that the clock on the mantel was just striking 7.

"I fell asleep and dreamed that the devil had come to me and said I could have all the money I wanted if I would be content to die on my thirtieth birthday. He told me to think the matter over, and he sat down in my Morris chair and picking up a magazine, read it for a long time. I about an hour's time I told him that I would accept. He rose, put a packet of money on the mantel, and told me that as often as I desired money I had but to look on the mantel and the amount would be there. And then he opened the door and went out."

"I was thoroughly cognizant of the fact that I was only 25 years old, and had five years yet to live, yet in that dream I lived them. I did not go to sleep—I behaved myself—but lived surprisingly—traveled all over the world. I even fell in love, but did not ask the girl to be my wife, because I had always in my mind the fact that I was to die as soon as I was 30 years old."

"On the night of my 30th birthday I gave a stag affair to about twenty men. I was as gay as any man there, and the quip and jest and story had gone around. Then my nearest intimate got up and proposed my health. It was a drunkard's health, and I called upon a speech. I rose, glass in hand. Just as I got to my feet the clock in the hall chimed—and I was 30 years old. I tried to raise my glass on high."

SOME RAPID DREAMING.
Many Things a Man May Imagine in Five Minutes.

How long does it take you to dream? Did you ever find out—or try? Mohammed, it is related, once fell asleep on a horse's back, says the Philadelphia Press. Before falling off to dreamland he said he saw a palm tree—the only one in sight—about six camel's lengths away. He fell asleep and dreamed that he had gone to heaven. He saw strange sights and wonderful, many of them. He had no clear conception of time, but he felt rather than knew that

but it felt with a crash to the table. The lights danced in front of me, the floor's face was a blur. I fell off the table and I felt myself falling, falling, falling—and then I awoke with a start. It marked five minutes after 7—I had been asleep five minutes and had lived five years."

That was the man's story—you can believe him or not, you can measure his meaning or not, just as it best suits you.

He merely told the tale as illustrating how short a time as computed by him—man reckoning it may take to live a cycle of dream life.

"Well, it's worth thinking over—whether you believe it or not?"

LOUBET DECORATED.

New President Reads His Message
to the Cabinet.

Paris, Feb. 21.—Gen. Dubouet, duke of Anserstadt, grand chancellor of the Legion of Honor, today invested President Loubet with the grand cordon of all the Legion of Honor in the presence of all the cabinet ministers.

The cabinet met today with President Loubet presiding. The president communicated to them his message, which will be read in the chamber of deputies and senate this afternoon.

The council ordered that all the public offices, schools and the houses be closed on the day of the late President's funeral.

In President Loubet's message, submitted to both houses this afternoon, he says the regular transmission of power to the new president proves France's fidelity to the republic at a time when certain misguided persons are seeking to shake the confidence of the country in its institutions.

Continuing, the president dwells upon the necessity of appeasement, union and respect for the essential organs of society: parliament, the magistracy, government and the national army. He concludes with reviewing the work of the republic, which, he is seeking to assure, assures liberty and peace, has founded a great colonial empire and has concluded alliances and previous friendships.

AS TO THE WAR TAX.
Jefferson City, Mo., Feb. 21.—In the proceedings of the senate today, the attorney general today filed a motion which is in the nature of a demurrer to the return and asked for a judgment on the pleadings.

NO QUORUM.

Harriburg, Feb. 21.—The thirtieth ballot for United States senator today resulted: Quay, 9; Jenks, 6; Dettell, 1. No quorum.

PENNSYLVANIA ELECTIONS.

The Republicans United and Their
Candidates Will Win.

Philadelphia, Feb. 21.—Today is election day throughout Pennsylvania for the selection of city, town and borough officials. No state officials are voted for. The day is a legal holiday.

In Philadelphia a mayor, city solicitor and three police magistrates are to be chosen by the voters of the entire city, and the various wards separately select members of city councils and school directors. A light vote is being polled on the city general tickets, inasmuch as the election of the Republican candidates by large majorities is assured.

There is no factional fight in the Republican party this year, as has been the case in the past years. Samuel H. Ashbridge for mayor and John L. Kinney for city solicitor received the full party endorsement and support, and their election by very large majorities is conceded by the Democrats. The Democratic candidates are Dr. W. H. Hoskins for mayor and Frank R. Shattuck for city solicitor.

Tobacco Companies Must Give Mis-
souri's Attorney Information.

Jefferson City, Mo., Feb. 21.—The supreme court today granted the Continental and other tobacco companies, until March 1 to file with the information of the attorney general, the names of the persons who are in violation of the law forbidding the sale of tobacco to minors.

NEW LEATHER COMBINE.
Chicago, Feb. 21.—A new leather combine, capitalized at \$100,000, is being organized to take over the tanneries on the west side of the United States leather company. The combine will be the American Hide and Leather company. The company will not be antagonistic to the United States company.

THE VETO

LEGISLATIVE GRIND

The House Passes the Bill
Relating to Homes For
Orphans.

From a Staff Representative.

St. Paul, Feb. 21.—(Special to The Herald.)—By a vote of 26 to 16, or four more than needed, the state senate today passed over the governor's veto the bill appropriating \$20,000 to pay bounty earned under the best sugar bounty law. Three Democrats voted with the Republicans in favor of the bill.

There was but one absentee when the roll of the senators was called just before the vote on the bill. That was Senator Reeves of Pope county, who is confined to the hospital and absolutely unable to be present.

Every Republican voted to pass the bill over the governor's veto, and three Democrats, Senators Baldwin, Johnson and McNamara, voted with the Republicans. The result was a vote of 26 to 16 in favor of passing the bill over the governor's veto.

The Democrats had kept their own counsel very well before the vote was taken, and no Republican knew how they were to vote, but it was taken for granted that they would all vote to sustain the governor. Neither was it known to an absolute certainty that the Republicans would vote for the passage of the bill, though it was believed that they would.

When the bill was first brought up, after having been reported from the house, the call of the senate showed that Senators Daly, Stockwell and Ives and Senators K. E. Smith, Horton and Reeves were absent. Senator Potter reported that Senator Smith had been called back to Minneapolis this morning after his arrival at the capital, and expected to return not later than 7 o'clock. Senators Ives, Horton, Daly and Stockwell soon came in, and Senator Smith reported that he was just about to board a car for St. Paul.

The call of the senate was continued. Senator Smith appeared in the senate chamber at 11:55 o'clock and was greeted with a hearty round of applause.

When the senate was called to order, Senator Sheehan asked that the roll be called, and all were found present except Senator Reeves. The call of the senate was continued. Senator Young moved that H. E. Smith be seated notwithstanding the veto of the governor. Senator Horton seconded the motion.

The bill was reported and the veto message was read by Secretary Langrum. After some delay deciding the actual details of the procedure, the roll call began. Baldwin voted for the bill and against the governor without saying a word. Senator Stockwell was the first to explain his vote. He admitted that the debt was a just obligation. Several others explained their votes, the result being as stated.

WORK OF THE HOUSE.

Refunding Measure Reported Favor-
ably By the Tri-City Delegates.

St. Paul, Feb. 21.—(Special to The Herald.)—In the house S. F. 221, to authorize cities of over 50,000 to take up their floating indebtedness by issuance of bonds, was favorably reported from the tri-city delegations. Among the new bills were:

Dealey—To regulate bicycle riding.
Vondreyer—Allowing cities of over 1000 to take up their floating indebtedness by issuance of bonds.

Abbott—Prohibiting docking horses.
Hush—To protect public health in slaughter of live stock for food.

Grandahl—To appropriate money for state training school for repairs and buildings.
Hilary—To condemn rights-of-way for street railways.

Grandahl—For current expenses of state training school.

The following bills on the calendar were passed:

S. F. 21, Snyder—Relating to societies organized for the purpose of securing homes for orphans.
S. F. 22, Jones—Relating to the sale of forfeited property on tax sale and the disposition of the proceeds thereof.

H. F. 73, West—A bill for an act to amend section 7 of chapter 36 of the general statutes of the state of Minnesota of 1894, being section 6178 of the general statutes of the state of Minnesota of 1894, relating to the admission to practice of attorneys and counselors at law.

LOSE THEIR SEATS.

Opinion of Judiciary Com-
mittee as to Gen. Wheeler
and Others.

Washington, Feb. 21.—At the opening of the session of the house today Mr. Tucker (Dem.), of Michigan, denied that he had voted in the negative yesterday on the bill appropriating \$20,000 for payment to Spain. He had voted in the affirmative, and the journal so stated.

A bill was passed to grant to the Sioux City & Omaha railroad a right-of-way through the Omaha and Winnebago Indian reservation. The house further insisted upon its disagreement to the bill, and the committee on the bill for the allowance of certain claims under the Homestead act, and agreed to a conference.

Mr. Henderson (Rep.), of Iowa, chairman of the committee on judiciary, which investigated the right of Gen. Wheeler of Alabama, Mr. Robbins, of Pennsylvania; Mr. Colson, of Kentucky; Mr. Campbell, of Illinois, who held commissions in the army, and members who served on several commissions to

The senate passed the anti-trust bill with but one dissenting vote.

IN MEMORY OF FAIRIE.
Chicago, Feb. 21.—Solemn mass was celebrated in honor of the late Fairie, memory of President Faure, of France, who died in Paris, Feb. 20, 1899. The mass was celebrated at the church of the Most Sacred Heart, and was attended by a large number of the faithful.

VOTE IN DELAWARE.
Dover, Del., Feb. 21.—The second and sixty-third ballots for senator: Adkins, 2; absent, 2; Richardson, 1; Salisbury, 1.

HAYWARD GAINS ONE.
Lincoln, Neb., Feb. 21.—Hayward's followers made an effort to secure more votes today. No trains have reached Lincoln since the election.

A DULUTH INVENTOR.
Washington, Feb. 21.—(Special to The Herald.)—Patent for a safety pocket was today issued to E. H. Burger, of Duluth.

SNOWING AGAIN.
Leadville, Feb. 21.—A severe snow storm began here last night and continues today. No trains have reached Leadville from any direction today.

LETTER FROM THE POPE.
Rome, Feb. 21.—The Observator Roman newspaper today published a letter from the pope to Cardinal Gibbons saying that "it is the duty of the clergy to adapt the liturgy to the needs of the people, and to use the vernacular in the mass."

LADY CURZON DECORATED.
London, Feb. 21.—The Official Gazette announces that the decoration of the imperial order of the crown of India has been conferred upon Lady Curzon, wife of the viceroy of India and daughter of L. Z. Leiter, of Chicago.

AN ANTI-TRUST DEPUTY.
Under a former administration, the United States marshal of Western Pennsylvania sent a warrant to one of his deputies who was stationed in a back country, for the arrest of a certain individual. The deputy knew the man and treated him leniently, says the Pittsburgh News. When they reached Pittsburgh the necessary papers were not at hand to commit the prisoner to jail. The deputy would not take the man to jail because he would have to pay the bill out of his own pocket. So he took him to the jail and kept him there until the necessary papers were at hand.

THE BEEF IN CANS.
Col. Powell described it as a stringy, unwholesome looking mass. Soldiers could not retain the roast beef on their stomachs.

NOTICE OF MORTGAGE SALE.

Whereas, default has been made in the conditions of a certain mortgage which was made and delivered by William Harwood and his wife, Mary Harwood, to the Mutual Benefit Life Insurance Company, an organization organized under the laws of the state of Minnesota, which mortgage is recorded in public first third, 188, and which was made and delivered to said company by said mortgagee for St. Louis County, Minnesota, on the 15th day of March, 1898, and whereas, said mortgage is for the sum of \$10,000, and whereas, on page one hundred sixty-six of said mortgage, it is provided that the non-payment of the principal sum thereof shall constitute a default on the part of said mortgagor, and whereas, on the 15th day of June last, 1898, and exchange, no part of said principal sum has been paid by said mortgagor, and whereas, there is therefore claimed against said mortgagor, and actually due, upon said mortgage, the principal sum of \$10,000, the sum of ten thousand three hundred and thirty dollars, principal, interest and exchange, and whereas, said mortgage is in full power of sale in due form, which has been duly assigned to the undersigned by the power mentioned, and no action or proceeding has been instituted, and whereas, there has been no default by said mortgagor in the payment of said mortgage, or any part thereof, and whereas, the undersigned is duly given, that by virtue of said power of sale contained in said mortgage, he is authorized by the statute in such case made, said mortgagee, or his assigns, to sell the premises described therein, situate in Duluth, County, Minnesota, described as follows, to-wit: Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, WHY IS ELECTRIC LIGHT BEST?
Because it is Healthy, Clean, Pure and Brilliant.
HEALTHY! It has no odor. Prof. Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN It causes no discolorations of furnishings and decorations in homes.
SAFE As electric light work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

A SOURCE OF CHAGRIN.
The Failure of the High Joint Commission.

Chicago, Feb. 22.—A Washington special to the Journal says: The failure of the joint high American-Canadian commission to agree on the terms of a treaty, after their eight months of labor, is a source of chagrin to almost all interested parties, except the paper trust and the lumber barons. Those looking below the surface for the real cause of the rupture are not giving much attention to the alleged difficulties in adjusting the Alaskan boundary matter.

In order to evade the responsibility, and to make it the easier for the Canadians to face the constituents who elected them on a platform of better commercial relations with the United States, and to give an opportunity of shirking to the senators representing the lumber interests, it has been officially given out that the Alaska boundary was the cause of disunion. But those who have seen the efforts of the trust and the lumber lobby to preserve the \$2 million are not deceived.

But whatever the cause, the effects are apparent. The indefinite postponement of the right to build small workshops at Lake Umbagog for the use of the government. Another effect will be the postponement of the construction of a waterway for the great lakes, and to render useless the appropriation of \$250,000 for this purpose. It will give the paper trust another year at least of government supported monopoly. It will continue the mining disputes and the danger arising from them in the Alaskan gold regions. And finally, there is likely to be another consequence most embarrassing to the president in connection with attempts to secure a modification of the Clayton-Bulwer treaty, looking to the construction of the Nicaragua canal. England has been watching the efforts of the Canadian commission with much concern, and it has been mainly intimations to the state department that the canal treaty negotiation would have to wait on the commercial treaty, and would depend very much on the result of the latter. Now that the United States has refused to make concessions on the only material demand—namely, for better commercial relations—England will hardly be as ready to concede rights under the canal treaty.

IN RECEIVER'S HANDS.
A Company Operating Two Sulphate Mills in Wisconsin.

Milwaukee, Feb. 22.—An Evening Wisconsin special from Appleton, Wis., says: The Manufacturing Investment company which operates two sulphate mills in Wisconsin has gone into the hands of a receiver. The property is valued at \$100,000 and \$200,000. No statement as to the cause of the proceedings can be made by the Appleton officials but they say the business of the company will be conducted as before. It is claimed that the proceedings were brought on a purely technical ground.

LAWLER ON DUTY
Eloquent Democrat Speaks on the Problems of the Future.
FATHER OF COUNTRY
Cincinnati Celebrates Washington Day By Doing Honor to Bob Evans.

Paul, Feb. 22.—(Special to The Herald.)—Washington's birthday was celebrated by the Sons of the American Revolution and Sons of the Revolution. The people's church this afternoon, a chorus of 600 school children sang patriotic songs. The oration was by Hon. Daniel W. Lawler, former Democratic national committeeman, who in the course of his address, after eulogizing the American course in the Spanish war, said:

"Fear not, my fellow countrymen, that disaster or disgrace can come to this fair land, because its people heart and soul are for the future. Fear not the problems of the future, for they will be solved in their own good time in freedom, in honor and in justice. And whatever else may happen, be assured of this—this territory may be acquired, but the American people will never withdraw the protecting shelter of the American flag from a single human being who once has stood beneath its folds, until it secures to him by charter or by canon that right to life, liberty and the pursuit of happiness which God has given, and which men can never take away.
"If this be imperialism it is the imperialism of Constantine, who saw and followed the respondent symbol in the heavens that pointed out to him the way of duty and of honor, and it is the imperialism of Nero, who sat securely in pride and comfort, and with selfish and careless mind upon the agonies of men."

FOR "FIGHTING BOB."
Cincinnati's Celebration Consisted Mainly in Doing Him Honor.

Cincinnati, Feb. 22.—Cincinnati's celebration of the birthday of Washington consisted mainly in doing honor to "Fighting Bob" Evans. He came to Cincinnati to attend the banquet of the St. James League club tonight. At noon he was brought to the floor of the chamber of commerce, where a large assembly gathered to greet him. He was introduced by Hon. Michael Ryan in an eloquent speech. Capt. Evans with charming frankness said he supposed he had expected a speech from him; that was not his trade. The situation was embarrassing, he said, but he added that he was in any danger. Speaking of the Spanish war, he said the navy went into it because the men behind the guns, he never saw such devotion and courage as these men exhibited.

READ WASHINGTON'S ADDRESS.
Senator Wolcott of Colorado Performed That Task in Senate.

Washington, Feb. 22.—Today's session of the senate was devoted to two special orders—reading Washington's farewell address, and the pronouncing of eulogies on the late Senator Morrill of Vermont.

An invitation extended by the representative of France, M. Thibault, through the secretary of the senate, to the members of the senate to attend the memorial service of the late President Pauline of France to be held tomorrow morning at 10 o'clock in St. Matthew's church, this city, was received.

Mrs. Cullom of Illinois moved that the invitation be accepted, but it was pointed out that the invitation was not to the senate as a body, but to individual members and any action was unnecessary. Mr. Wolcott of Colorado was then introduced and began his eulogy upon the distinguished statesman.

APPLAUSE IN GALLERIES.
Washington's Address Is Read in the House Also.

Washington, Feb. 22.—Washington's farewell address was read in the house immediately after the approval of the journal today. Although it had been the custom for many years to read the address on Washington's birthday in the senate, this was an innovation in the house.

After the journal had been approved, Mr. Bailey, of Texas, the Democratic leader, asked unanimous consent that the address be read from the clerk's desk. The speaker submitted to the question to the house, and there being no objection, he directed the clerk to read it. There was a large attendance on the

MR. DALY CONFIRMS
He Appears and Testifies Before the Beef Investigating Board.
EXAMINED CLOSELY
The Chicago Packers Also Present Their Side of the Case.

Washington, Feb. 22.—When the court of inquiry to investigate the beef controversy met this morning Col. Davis, the recorder, announced that the examination of witnesses so far summoned and reported was about concluded. The court should consider now the questions of further summons and procedure. At his suggestion the court went into secret session.

When the executive session concluded Dr. William H. Daly, of Pittsburgh, who was major and consulting surgeon of volunteers during the war, and who testified before the commission that he had discovered by chemical analysis boracic and salicylic acid in refrigerated beef furnished to the army, was examined closely and with great care, developing with minuteness all of Dr. Daly's duties while attached to Gen. Miles' staff.

These, besides those of an army surgeon, consisted in making special reports to Gen. Miles on camp sites, water supplies and the like. The recorder very carefully developed a number of points of these reports were verbal or telegraphic, differing from the now famous report which was the cause of Dr. Daly's being summoned as a witness. Therein the examination was considerably from that of the previous witnesses.

Dr. Daly testified that he was assigned to the staff of Gen. Miles and remained in Tampa only a few days after the Shafter expedition sailed, under direction of the army medical department. Thence he went to Key West, Miami and other points to study proposed camp sites. Later he came north and finally joined Gen. Miles at Manzanilla, Porto Rico, sailing from Charleston subsequently to the latter's departure. His duties, he said, were those of attending surgeon at headquarters and general duties incident to surgical and medical duties of the army. Sometimes, he said, he acted in respect to written and sometimes verbal orders.

Col. Davis questioned closely the witness in regard to his duties and the source and character of his orders, evidently with a view to the bearing these developments might have upon the witness' analysis and reports upon the beef.

Dr. Daly said he remained in Porto Rico five or six days after Gen. Miles departed, being ordered to supervise the careful preparation of the transport, Panama for bringing convalescents north in a manner above reproach. This was because there was a very considerable complaint as to the outfitting of returning transports. He received orders to get the troops into the best possible condition for active service, and to render assistance and instruction wherever it was needed.

Reports were rendered after the inspection of each camp visited. These reports in the course of regular routine passed through the hands of the general commanding the army. During the trip he became so ill that he was obliged to return home to Pittsburgh, where, after remaining for some time on sick leave, he tendered his resignation.

In all of these detailed recitals the question of beef was not broached by the court when Dr. Daly had been chronologically carried through his term of service in the army, the recorder handed him the famous "embalmed beef" report, and asked him if he recognized it. Dr. Daly said that he did, and it was all right except perhaps the date, which in the copy was Sept. 21. He said to the best of his recollection the exact date was Oct. 14. The date, however, he said, was not essential, the report being genuine and, in the opinion of Dr. Daly, perfectly accurate.

Col. Davis then addressed the court briefly, saying that it was only within twenty-four hours that he had been able to personally study this report of Dr. Daly, and he found in it certain allegations against certain persons who had made contracts for supplying food material to the government. To continue the examination of the witness on this subject in the absence of those persons against whom his charges were directed would be to deprive them of rights accorded them by law. He therefore suggested that the parties interested in the matter be summoned to give reasonable notice of the proceedings, and that the witness be excused subject to recall when the examination had continued with the other interested parties present.

Dr. Daly's testimony was soon suspended in order that the Chicago packers might be represented, while he is examined specifically as to the allegations that the beef was chemically prepared.

EGGS ARE VERY SCARCE.

Prospect of a Famine Has Sent Up Prices.

Right in the beginning of the Lenten season the commission men announce an egg famine. There are scarcely any eggs at all in the city, and the price of those that are obtainable has gone up rapidly in the last day or two. Yesterday the price of eggs in Minneapolis jumped from 18 cents to 27 cents, and in Duluth the price jumped from 20 to 28 and 30 cents. It is said that there are only a few cases of eggs in town, and the prospects of securing more are very poor indeed.

The causes of the famine are the exhaustion of the supply of storage eggs and the failure of the hens in the North-west to replenish it. The cold weather of the past few weeks has had a depressing effect upon the production of eggs, and very few have been received by the commission men. In the meantime the storage eggs have rapidly disappeared, and now there are only a few of them left. The increase in the price will cause the farmers to bring in the eggs as fast as the hens produce them, so the matter is now up to the hens.

THE STORM CONTINUES.

Provisions Very Low in Some Places in Colorado.

Leadville, Col., Feb. 22.—The snow storm which began Monday still continues and a high wind is drifting the storm badly. Trains arrived from the East over the Denver & Rio Grande railroad, but this line is blocked on Tennessee pass west of this city. The Marshall narrow gauge line was opened today. The Colorado Midland and South Park roads are completely blocked. People who have left Breckenridge and other lines on the South Park line, where no trains have been running for several weeks, say that provisions are very low in those places and many people will starve unless relief reaches them very soon.

GIVE THE CHILDREN A DRINK

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it, because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant, but a health builder, and children, as well as adults, can drink it with great benefit. Costs about one-fourth as much as coffee. 15 and 25 cents.

AT WEST DULUTH

Franklin Trust Now Sole Owner of West Duluth Blast Furnace.

MAY DO SOMETHING

Likely That Company Will Want to Get Its Money Back.

The final decree against the Duluth Iron and Steel company in favor of the Franklin Trust company has been filed. The Franklin Trust company is now the sole owner. The amount involved was between \$40,000 and \$45,000, and the trust company thus becomes the owner of a valuable plant at a very low price. It is but fair to presume that the new owners will not permit that amount of capital to be idle indefinitely, and it is altogether probable that the recent legal steps in foreclosure were taken with the object in view of getting some returns from the investment. Consequently it is among the possibilities that the plant will either be operated by the trust company or sold to somebody who will find a way to make it productive and profitable. The people of West Duluth will gladly welcome the day when the furnace again goes into blast, and the increased demand for pig iron at constantly advancing prices would seem to warrant a resumption of operations at an early date.

DR. PEARSON TO LEAVE.

Dr. J. Pearson, for several years a practicing physician here and one of the pioneers of West Duluth, has decided to pull up stakes and remove to Two Harbors, where he will practice his profession. The village of Two Harbors, with a population of over 2000 people, has at present but two physicians, Dr. Build and an assistant, Dr. Pearson considers the place an inviting field.

NO FEARS FOR FRANCE.

Senator Davis Talks on the Disturbances in Paris.

Chicago, Feb. 22.—United States Senator Cushman K. Davis of Minnesota, who recently returned from Paris, where he was a member of the Spanish-American peace commission, said today in an interview here:

"Although the situation in Paris today is apparently disturbed, I do not regard it as a crisis or a Communist restoration as among the possibilities. In fact, I believe the republican form of government is stronger than ever before in France, and I do not fear for the future of that great people."

A MEMORIAL PROJECT.

Washington, Feb. 22.—Today at the congress of the Daughters of the American Revolution much time was devoted to the building of a memorial hall in Chicago. The report showed a balance in the fund of \$2500. At the conclusion of the reading of the report, an opportunity was given to make contributions to the fund personally or on the part of chapters with the result that \$4500 was added to the fund, the sums ranging from \$1000, of which there were two, to \$500. The hall will be located in this city.

ARRIVED AT MANILLA.

Washington, Feb. 22.—The Solace sailed from Manila yesterday on her way to Manila. Admiral Dewey announced the arrival of the Solace at Manila today. The Bennington received orders to proceed to Manila at once, stopped at a hotel and took the United States flag which it is assumed has been done and also at Guam.

SUFFERED FOR ANOTHER.

A Life of Devotion to an Erring Brother.

There recently passed away in Rochester, Minn., a man whose death recalls the saying that "the innocent must suffer with the guilty." A little over ten years ago a man was found lying in a cluster of weeds in one of the back streets of Redwood Falls. A bullet hole in the forehead and a broken arm announced the cause of death. The body of the man was discovered, Clifford Schaffer, a barber, as that of a man who had been shot. He was arrested charged with the murder, the story being that Dodge and Holman, two men from Morton the night previous, and a cousin of Dodge, had been shot by his relative on the way up, relieved him of a small amount of money he had on his person, and then shot him. The body was found in a cluster of weeds. Holman went to the hotel and remained for the night and was arrested shortly after the body was discovered.

At that time W. F. Holden was a photographer. He was a brother of the man accused of the crime and was enjoying a good business. But as soon as he was notified of his brother's arrest he dropped his business and put up a building for his brother. He kept up his relentless fight, and on the night before the murder was to have been hanged, all of the representatives of the daily press had arrived, there were three or four hundred people, three days' reprieve from Governor Merriam, and the case was being tried. The brother, who was shot, was found in the clump of weeds. Holman went to the hotel and remained for the night and was arrested shortly after the body was discovered.

THEORIES ABOUT THE MAINE.

Nothing could be written in better taste and temper than Capt. Sigbee's Personal Narrative of the Maine in the Century. The captain's personal relations with Gen. Blanco and Admiral Montefiore were, he says, undisputed. The captain's personal relations with Gen. Blanco and Admiral Montefiore were, he says, undisputed. The captain's personal relations with Gen. Blanco and Admiral Montefiore were, he says, undisputed.

THEORIES ABOUT THE MAINE.

The admiral assumed from the first that the explosion was from the interior of the vessel. He asked if the dynamo boilers had not exploded. He told him we had no dynamo boilers. He said that the plans of the vessel, as published, showed that the gun cotton was stored aft, under the captain's cabin. He pointed out that modern gunpowder was sometimes very unstable. This was met by his remark that our powder was of the old and stable brown prismatic kind, and that we had no gunpowder. He referred to the fact that the presence of boilers, lighted, near the forward coal bunkers, which were adjacent to the gun cotton. This again was met by the remark that for three months no boiler in the forward boiler room had been lighted. He pointed out while in port the two foremost boilers in the ship had been doing service.

THE WATERLOO BALL. Jane, Dowager Lady Carew, has just entered upon her 101st year. She danced at the duchess of Richmond's ball at Brussels on the night before Waterloo. Two other ladies are still living at a very advanced age, who were present at the ball—Lady Louisa Tighe and her sister, Lady Sophia Cecil. The latter, a child of 8 had been put to bed, but stole out in her nightgown and watched the ball from over the balustrade. She was a daughter of the duchess.

The Life Of a Watch

DEPENDS GREATLY ON THE CARE WHICH THE OWNER BESTOWS UPON IT. A GOOD WATCH, IF CAREFULLY CLEANED AND OILED ONCE A YEAR, AS IT SHOULD BE, WILL LAST A LIFETIME. YES, A HUNDRED YEARS. MANY GOOD WATCHES ARE ALLOWED TO GO WITHOUT CLEANING AND OILING FOR YEARS, WITH THE RESULT THAT THE OIL IS ENTIRELY DRIED UP. THE PIVOTS ARE OILED AND RUSTED OUT. SO THAT IT COSTS TWICE AS MUCH TO PUT THE WATCH IN PROPER CONDITION AS IT WOULD IF GIVEN TIMELY ATTENTION. I HAVE LONG ESTABLISHED A REPUTATION FOR SERVING MY CUSTOMERS CAREFULLY, AS WELL AS DOING THE BEST OF WORK. IF YOUR WATCH IS NOT GIVING SATISFACTION, BRING IT TO ME AND I WILL TELL YOU JUST WHAT IT NEEDS—NO CHARGE FOR EXAMINATION—AND IF LEFT WITH ME I GUARANTEE THAT YOU SHALL HAVE AN ACCURATE AND RELIABLE TIMEPIECE.

MORE AID FOR OTIS

War Department Will Send Further Reinforcements to Manila.

Precautions Taken By Gen. Otis to Prevent More Trouble.

Washington, Feb. 23.—The war department has arranged to dispatch further reinforcements to Gen. Otis at Manila. The regiments selected are the Ninth infantry, now at New York, and the Sixth infantry, at San Antonio, Tex. Both these regiments will go by way of San Francisco. It is expected that the transports taking them will be able to leave by March 15.

By that date Gen. Otis will have received all the reinforcements now afloat and bound for Manila save those on the Sheridan, which sailed from New York last Sunday. This will give him 6000 more troops, made up of the flower of the United States army regulars, tried in Indian service, and most of them inured to the Cuban climate in its worst aspects and participated in the campaigns there during the last wet season.

Every report that comes to the war department goes to convince the officials that an offensive campaign must be immediately assumed in the Philippines. This is no longer a matter of policy but of necessity, against which the officials say sentimental reasons cannot stand. In their opinion the lives and health of American troops now in the neighborhood of Manila depend upon the initiation of such a campaign.

Gen. Otis' report of the big fire in Manila yesterday and last night, while agreeing closely with the press reports, makes mention of a rather formidable demonstration by the insurgents near Calocan, the scene of some of the heaviest fighting succeeding the first engagement with the insurgents on the 15th. This is taken as an indication that the rebels have not yet been thoroughly impressed with the strength of the American arms. It is realized that it will be necessary to sweep the country clear of all hostile elements.

A most serious problem confronts Gen. Otis in his protection of Manila and the closely with the press reports, not only because of the treacherous character of the rebel Filipinos, but also because outside of the business establishments the houses are built of the flimsiest bamboo hung with matting screens. Even the floors are made of strips of bamboo, separated so as to allow the free circulation of air. It is within the power of almost any person to set fire to these houses from without or within in a few seconds, and as they are closely built the ravages of a single fire in a quarter so closely constructed might easily reach the half million dollar point mentioned by Gen. Otis in his dispatch. The foreign quarter is of better construction, but still includes many of the slight bamboo houses, which the older residents seek to find cooler than houses of more solid construction, and probably are more easily defended against such an attempt than any other section of the town.

The officials here say that if the rebels continue this sort of tactics in Manila, disregarding the rules of war and jeopardizing the lives of women and children and foreigners who are not involved in the war, Gen. Otis will be under the necessity of making house-to-house inspection and summarily disposing of all suspicious characters.

ORDERS FROM GEN. OTIS.

Extraordinary Precautions Being Taken to Suppress Trouble.

Manila, Feb. 23, 5:35 p. m.—Major Gen. Otis today issued a general order directing all the inhabitants of Manila, until otherwise ordered, to confine themselves to their homes after 7 o'clock in the evening, when the streets will be cleared by the police. The general also warns incendiary suspects that they will be severely dealt with if discovered in any locality.

Extraordinary precautions have been taken for the suppression of further trouble, which has been the case in the place in the city tonight. But it is generally believed that last night's experience will effectively quell the disturbing element.

the seminary, contributed the leading paper on "Allouez and His Relations to LaSalle." He said that Wisconsin and the whole Northwest owes a debt of gratitude to Allouez, whom he styled the apostle of Wisconsin, for his twenty-four years of hard missionary labor among the Indians of what is now Wisconsin and Illinois.

Other papers presented were "Some Distinctive Characteristics of the History of Our Land Region," by Rev. John N. Davidson, of Two Rivers; "The Old Fort at Fort Atkinson," by Professor D. D. Mayne, of Janesville; "The Future of Northern Wisconsin," by Hon. James O'Neill, of Neillsville, and "The Great Lakes and the Railroad Development of Northern Wisconsin," by Professor J. S. PRESIDENTIAL NOMINEES.

Christian K. Kohlsaat of Illinois Gets a Judgeship.

Washington, Feb. 23.—The president today sent these nominations to the senate: Christian K. Kohlsaat, of Illinois, to be United States district judge for the northern district of Illinois, vice Peter H. Grosscup; James S. Sherman, of New York, to be general appraiser of merchandise at the customhouse at Des Moines, Iowa; George W. Garret, of Arkadelphia, to be a commissioner to examine and classify lands within the land grant and indemnity land grant limits of the Northern Pacific railroad company in the Missouri land district in Montana; Postmasters: Louis S. H. Gilmer, of Hot Springs, Arkansas; William A. Leet, of Itasca, Wisconsin; Thomas A. Hughes, of Beaver Dam; Frank E. Hurd, of New Lisbon, North Dakota; and J. C. Thomason, of Dickinson.

HIGH FENCES ALL RIGHT.

The Wisconsin Senate Will Not Legislate Against Them.

Madison, Feb. 23.—(Special to The Herald.)—The senate held a 12-minute session this morning in which it passed one bill, killed two and sent another to a third reading. One of the bills killed was Senator Whitehead's, making erection of high fences to annoy neighbors a nuisance.

In the general assembly resolutions by overbeck were offered looking to the transfer of the State Historical society's property to the state. The assembly killed one bill compelling the state to pay the costs of prosecution of offenses committed by inmates of state institutions.

A FIREMAN KILLED.

Loss of \$200,000 By Fire in Chicago's Packing House District.

Chicago, Feb. 23.—During a fire which for two hours today threatened to annihilate the entire packing house district of the stockyards, one fireman was killed and three others severely injured, one so seriously that it is believed he will die. An employee of Swift & Co. was also struck by falling bricks and severely injured. The blaze destroyed Swift & Co.'s warehouse No. 7, directly in the center of the packing house district, and several of the adjoining structures were slightly damaged. Loss is estimated at \$200,000.

Patrick F. O'Neill, fireman, killed instantly by falling walls.

Fire today destroyed the Lind building, 25 to 32 Market street, one of the few buildings which stood intact in the great fire of 1871 and through several smaller conflagrations which threatened to destroy it since that time. Owing to the fact that a special call for thirty engines had been sent in from the Swift Co. stock yards fire, only ten engines were left to guard the Lind building, and these, assisted by two fire tugs, struggled for three hours to subdue the flames after three hours' struggle.

The building, which was a five-story structure, was occupied by a large number of firms, the majority of them being manufacturers of leather and harnesses. The total loss is estimated at \$225,000. Of this \$100,000 is on the contents of the building, and the balance on the structure and stock. The building was a well-known landmark in the city.

MURDERER HANGED.

William Reid Pays the Penalty for Murdering Andrew Henry.

New York, Feb. 23.—William Reid was hanged in Jersey city for the murder of Andrew Henry in Hoboken on May 1, 1898.

LOREN FLETCHER'S PLAN.

Washington, Feb. 23.—Representative Fletcher, a member of the interstate commerce committee, will offer a compromise proposition on Nicaragua canal matters. He proposes to have a commission of eleven, consisting of five senators and six representatives, visit the Central American republics and look over the situation, and then report to their respective bodies. Mr. Fletcher will urge Chairman Hepburn to accept this compromise instead of endangering the entire river and harbor bill, which will probably come from the senate loaded with the canal bill.

TO AMEND TAX LAWS

Representative Laybourn Introduces Three Important Bills in the House.

TO PAY SOLDIERS

Substitute for the Pugh Bill Appropriates \$30,000 For That Purpose.

From a Staff Representative.

St. Paul, Feb. 23.—(Special to The Herald.)—Three amendments to the tax laws were proposed in as many bills introduced in the house by Representative Laybourn today. One is intended to make it impossible for the purchaser of city property to dodge any assessment for local improvements and applies to Duluth proper. A second bill authorizing common councils to reduce or rebate assessments when in their judgment such rebate or reduction is to the interest of the municipality. The third is to extend payment of delinquent taxes of 1897, where the taxes exceed the sum of 30 mills for 1898, "providing that nothing therein contained shall be construed to affect the right of municipal assessments for local improvements."

Among the new house bills were:

Fences—For maintenance Camp Release park, Lac Qui Parle county.

Nelson, N. C.—Conferring jurisdiction on land title cases where location is doubtful between two counties.

McNeill—Amending law for stopping passenger trains at county seats.

McNeill—Providing for suits against the state to determine title to real estate.

Laybourn—Providing for refunding for sales of a chapter 287, laws 1897, to authorize common councils to reduce assessments to amend general laws 1897 relating to extension of payment of delinquent taxes.

There was an unusually heavy list of committee reports, the appropriations committee disposing of almost all the miscellaneous bills referred to it. Those favorably reported included:

Staples—To appropriate \$10,000 to aid in the enforcement of the claim of the state to certain lands whose title is in dispute.

Torrey—Appropriating \$400 to pay state treasurer's surety bond.

Committee on taxes—Appropriating \$5000 for revision of tax laws.

McGuire—To appropriate \$2000 for salary of second assistant attorney general.

Dwinnell—To increase supreme court reporter's compensation to \$3500.

Vanhook—To amend section 2453, statutes 1894, relating to liens on logs and lumber.

Abbott—To prohibit docking horses.

Laybourn—Relating to laying out of temporary cartways or fireways.

A substitute was reported for the Pugh bill, by Representative Laybourn.

National Guard between the time of their arrival at Camp Ramsey and their muster into the service of the United States. It appropriates \$30,000 for such payment, which shall be paid in accordance with the provisions of the military code and directs the adjutant general to prosecute the state's claim for such expenses at Washington.

In committee of the whole, Laybourn presiding, the following bills were favorably reported to the house:

O'Neill—To amend law providing for changing boundary line between adjoining counties.

Staples—Relating to taxation of timber and mineral land.

Von Lehe—To amend general election laws.

Dwinnell—To prohibit getting on and off moving street cars.

The committee then rose and reported and the house took a recess.

TO PROHIBIT BOYCOTTING.

Senator Hawkins Introduces a Bill in the Senate.

St. Paul, Feb. 23.—(Special to The Herald.)—Senator Hawkins this morning introduced a bill to prohibit boycotting and blacklisting in the state of Minnesota. It was referred to the judiciary committee. Many people in Duluth have strongly urged the enactment of a law of this kind and while many of the members of the legislature admit the justice of the measure some of them are timid about voting on record on it. It is therefore difficult to prophesy as to the ultimate fate of the bill.

Senator Daugherty, chairman of the labor committee, submitted a majority and minority report on the bill requiring the payment of wages every two weeks. The former asked that the bill be passed on general orders, while the latter recommended indefinite postponement. The majority report was adopted and the bill killed.

There were also two reports on the eight-hour bill reported from Senator Daugherty's committee, one for indefinite postponement, the other recommending the passage of a substitute bill. By a vote of 16 to 24 the substitute was placed on general orders.

Among the bills introduced were:

Daugherty—Providing for concurrent jurisdiction of district courts on land titles.

Buckman—To legalize Little Falls waterworks and electric light bonds.

Ryder—Providing for burial of deceased non-resident paupers by counties or towns.

Chittam—To provide for inspection of meats before and after slaughter.

Knafoff—Provides bounty for sugar manufacturing of 15 cent per pound.

Knafoff—To pay bounty of \$1 per ton for growth of sugar beets.

Knack—To prevent boycotting or blacklisting.

Schaller—To amend law of 1894 providing that all public roads shall be laid out by supervisors.

Labor committee—Organizing of certain townships.

Labor committee—Substitute for Mr. Gorman's 8-hour bill. Sent to general orders.

SAWMILL BURNED.

Charles Meyer Killed By a Tree at a Lumber Camp.

St. Paul, Feb. 23.—A special to The Dispatch from Tomahawk, Wis., says: Last night about 1 o'clock the Somo Lumber company's large sawmill burned. The cause of the fire is unknown. The mill was valued at about \$70,000.

Charles Meyer, working in Gould's logging camp, was struck by a falling tree and killed instantly. Meyer leaves a wife and large family of small children.

THEY BURN MANILA

The Filipino Rebels Succeed In Burning Many Acres of Buildings.

A NIGHT OF TERROR

The Native Citizens Impede the Work of the Fire Fighters.

Manila, Feb. 23, 7:30 a. m.—Last night was one of terror to thousands of inhabitants of Manila, the rebels making good their oft-repeated threats to the extent of burning acres of buildings, wounding an officer and three men by firing through windows during the excitement.

At 8 o'clock an incendiary fire occurred in a block of brick buildings occupied by Chinese on the Calle La Costa, in the Chinese district. A stiff breeze was blowing and the inflammability of the structures caused the blaze to spread with alarming rapidity. The city fire department was hopelessly incompetent and the English volunteer brigade from Santa Rosa was summoned and with a modern engine pumping adequate streams from the canal, succeeded, after four hours' work, in getting the blaze under control.

Meantime the entire block and the greater part of two others across the street were completely gutted.

Hundreds of inhabitants were rendered homeless. The Chinese and natives lined the adjacent streets, while hundreds more, fearing a general conflagration, removed their furniture and other portable goods in every direction, within a radius of a quarter of a mile when the alarm was first given.

Gen. Hughes personally superintended the police arrangements. The whole city was thoroughly patrolled and guards were doubled. Every available man was dispatched to the region of the fire. Impediments were placed in the way of the firemen and the hose was cut five different times. This resulted in all the natives being driven off the streets, those in the immediate vicinity of the blaze being crowded in vacant lots and guarded until the flames were over.

In many instances the natives were insolent and paid no regard to the orders given them, and the soldiers were compelled to use harsh measures. The butts of their rifles and their bayonets were freely applied.

The danger from live electric light wires necessitated the closing of the circuit in the burning regions, and a fire was started in the Tondo district, where the natives are thick, and when the soldiers and firemen attempted to work, a regular fusillade of rifle and revolver shots were fired from the windows and roofs of the buildings. The firemen, escorted by soldiers, proceeded to clear out the houses, while the fire was unheeded.

The Thirteenth Minnesota was reinforced by detachments from the Third Infantry, the Second Oregon, the Third artillery and the Tenth Pennsylvania. Bullets flew in every direction in almost every street in the Tondo and Bonondo districts, causing the most intense excitement.

Capt. Robinson of Company C, Thirteenth Minnesota, and three men were wounded.

Many timid persons, imagining that the rebels had effected an entrance through the American lines and were advancing into the city, hurried frantically to the bridges and boats and were to be stopped at the first corner by a guard. The sounding of a native bugle call immediately put the fire in the Chinese color to the story. Thousands of Chinese crossed the bridges and plazas under fire, hurrying with their bundles to the Chinese consulate.

All night long the fire spread through the Tondo district, sweeping away rows of houses and devastating acres of territory.

The damage was incalculable. With daylight punitive measures were decided upon, and the Americans, although tired after their sleepless night's work, soon cleared the district of every native after a slight resistance.

Immense damage has been done by the fire, which are believed to have been started by insurgents. The fire department has experienced great difficulty in fighting the flames owing to defective apparatus. It is reported that the natives have damaged the apparatus.

There was some fighting in the streets during the night, but the Americans quickly quelled the uprising. A number of the insurgents were killed and several American soldiers were wounded.

A large market place was among the first to burn, between 600 and 700 residences and business houses have been destroyed. Fires were started at several points simultaneously, and all efforts to control them. Hundreds of homeless natives are huddled in the streets, making the patrol duty of the Americans very difficult.

FOR COMMERCIAL INSTRUCTION.

A Congress to Be Opened at Venice

In May.

Washington, Feb. 23.—The secretary of state has received a note from the Italian embassy at Washington, transmitting the regulations for the congress for commercial instructions which will be opened in Venice May 4 next. The regulations prescribe that all persons making application to attend the congress must be recommended by the committee of arrangements before March 31 and paying the contribution fee of \$1.50 to the treasurer.

Fort will become active members of the congress and will have the right to all its publications. The congress of subjects to be discussed will be decided by the executive council and will be communicated to all the members before the opening of the congress. The committee of arrangements invites suggestions in regard to the program. Authors are requested to indicate any reform which might be introduced in commercial instruction.

BY A BROKEN RAIL.

One Man Killed By a Train Leaving the Track.

Cheyenne, Wyo., Feb. 23.—One man was killed and seven injured by the wreck of Union Pacific train No. 1, east bound, known as the Overland flyer, at Weed station. The dead man is Mr. Pavey, a traveling man for the Baum Iron company of Denver. Six passen-

Every woman wears a crown who is the mother of a healthy baby. The mother of a puny, sickly, peevish baby bears a cross. It rests with every woman to decide for herself which kind of a mother she will be.

The woman who takes the right care of herself during the months preceding maternity may rest content in the assurance that her baby will be a strong, healthy, happy one. The woman who suffers from the distinctly feminine troubles during this critical period, and fails to resort to the right remedy, is pretty sure to have a puny, peevish, sickly baby, born into the world with the seeds of weakness and disease already implanted in its little body.

Dr. Pierce's Favorite Prescription is the best of all medicines for prospective mothers. It imparts health, strength, vigor, and elasticity to the delicate and important organs that bear the brunt of motherhood. It prepares a woman for the time of trial and danger. It strengthens and invigorates and insures the perfect well-being and absolute health of both mother and child. It does away with the squeamishness of the interesting period. It makes sure an ample supply of nourishment for the little new-born babe. It transforms weak, sickly, nervous and despondent invalids into healthy, happy wives and mothers. Thousands of homes have been made glad by the use of this wonderful medicine for the gift of happy, healthy babies.

The dealer who tries to persuade you to take some other medicine than that you ask for insults your intelligence.

"The best doctor I have known told me that I was not fit to be a mother and that I could not have a healthy child," writes Mrs. Bessie C. Williams, of Chicago, Ill. "I had ulceration and weakness, and each month I would get down in bed and suffer severely for twenty-four hours. Four bottles of your 'Favorite Prescription' cured me. For constipation—Dr. Pierce's Pellets."

THE CREW SAVED.

The Bulgaria Founders at Sea and Goes to Bottom.

Baltimore, Feb. 23.—The British steamship Vittoria, Capt. Wetherell, arrived today from Hull, via Hampton Roads, with four of the founders of the Hamburg-American liner Bulgaria. The rescued mariners are:

Second Mate O. Scharges, Quartermasters Carl Laube and John Schults, and Seaman William Sturke.

They were picked up by the Vittoria from an open boat from the Bulgaria, three and one-half hours after they had been cast adrift in latitude 40° north, longitude 45° west on Feb. 5. There, with the Bulgaria, were the four men who were picked up by the tank steamer Westland, a week ago, all of which have been heard from of the crew of the Bulgaria.

When the ship was wrecked, the crew of the Bulgaria, a week ago, all of which have been heard from of the crew of the Bulgaria.

THE BRIDGE BUILDERS' TRUST.

It Takes In Ninety Per Cent of the Firms.

Chicago, Feb. 23.—Organization into a trust of about 90 per cent of the iron and steel bridge manufacturers in America was practically completed in Chicago today at an adjourned session of the meeting held in New York last week ago.

The trust is known as the Bridge Builders' Trust, and includes the following concerns: Union Bridge company, New York; Phoenix Bridge company, Philadelphia; King Bridge company, Cleveland; Youngs Bay Bridge company, Youngstown, Ohio; Detroit Bridge company, Detroit; Louisville Bridge and Iron company, Louisville; and the Chicago Bridge and Iron works, Chicago.

It is said the organization of the corporation will be completed within two weeks and will be in active operation before the beginning of the summer.

MR. TOWNE TALKS.

Speaks to Students of Ann Arbor on Imperialism.

Ann Arbor, Mich., Feb. 23.—Hon. Charles W. Towne, chairman of the National Silver Republican executive committee, addressed a large audience at the annual celebration of Washington's birthday at the University of Michigan yesterday.

Speaking of the Philippines he said: "The United States administration has undoubtedly been the adding of the Philippines to the United States empire. The plan fails if it will be because the people have not accepted it."

In spite of very bad weather Mr. Towne had a large audience of students and townspeople who accorded him close attention.

Is the Steam Locomotive Doomed?

Men who know say that in the next ten years steam locomotives will disappear and electric motors will supplant them. They also say that with the new motive power trains will rush along at a minimum speed of 100 miles an hour. This will prove a blessing to those who wish to go quickly from one point to another, but no more so than Hostetter's Stomach Bitters has proved a blessing to those who wish to go quickly from sickness to health.

TO BE DISCHARGED.

But No New Trial to Be Given Dreyfus.

Paris, Feb. 23.—The Solr announces that M. Mandat, the prosecution general, will submit his report in the Dreyfus affair next week. The report will ask the court of cassation if it is to annul the conviction of Dreyfus.

If this be correct, it shows that the evidence before the court was not sufficient to justify the conviction of Dreyfus. The French law allows the court of cassation to quash a sentence without retrial only when there is proper proof that the offense alleged was never perpetrated.

HOW DAVIS WOULD DO

Talks to the Union League Club on the Philippine Question.

ALGER HAS HIS SAY

And Governor Pingree Talks on Trusts and the Expansion Issue.

Chicago, Feb. 23.—One thousand members of the Union League club gathered in the great banquet hall of the club house last night on the occasion of the annual banquet given by the club on the anniversary of the birth of Washington.

President John S. Miller of the club presided, and after the menu had been discussed, called the gathering to order, and in a few well-chosen words introduced the speaker, Governor Pingree.

When Gen. Alger arose he was greeted with enthusiastic cheers from upwards of three hundred persons seated at the banquet tables, and from the crowd in the galleries.

The speaker with Alger was repeatedly answered favorably and finally three systematic cheers were given for him.

Governor Pingree then spoke as follows: "It is high time that claims for responsibility for the Philippine question should be made more substantial than money."

"The Republican party came into power as the party of the people. The welfare of an enslaved race was the chief concern of the party."

"The Republican party was formed to make men free and equal. Its votes were cast for the freedom of the colored people and the country districts of the South."

A CHINAMAN'S VIEW.

A Chinese Minister Speaks on the Philippine Problem.

New York, Feb. 23.—Speaking at the Washington birthday banquet of the Southern society last night, Wu Ting Fang, the Chinese minister, said he had heard of Washington and revered his memory. When he was in China he had heard that Washington had confined himself to the country which he governed. His successors had done likewise. A change had come, however, within the last year. There were those who accused President McKinley of imperialism. The president's idea of imperialism was civilization and liberty. For himself, he would add the qualification of fairness to men of all parties without regard to their race or color. The United States now possessed the Philippines. There was a discussion whether or not this country should keep them. The minister said that he would not question the Philippines were not neighbors of the Chinese empire, and his people would rather have friendly relations with them than have them as enemies.

The trade of this country with China was increasing, and with the establishment of our government in these islands this trade would be greatly increased. There was a discussion whether or not this country should keep them. The minister said that he would not question the Philippines were not neighbors of the Chinese empire, and his people would rather have friendly relations with them than have them as enemies.

TAXES FOR SCHOOLS

House Passes the Bill Prepared For Benefit of the Cities.

From a Staff Representative.

St. Paul, Feb. 24.—(Special to The Herald.)—The house today under suspension of the rules passed the senate bill authorizing cities of over 50,000 to raise annually by taxation 1½ mills for school purposes.

The house is creating a fourth regiment of militia was favorably reported by the military affairs committee. The senate bill designating arbor and bird day was passed under suspension of the rules.

Among the new bills were: When—To appropriate \$15,000 for the erection of a home for soldiers' wives at the soldiers' home.

Riley—To appropriate \$10,000 for a monument for Sioux massacre victims in Jackson county.

Pederson—To amend public school laws for improvement of funds.

Brusletten—To amend sugar bounty law, limiting total bounties to \$15,000.

Krueger—Providing for assessments for keeping trees, grass and boulevards in proper condition.

Schall—To provide a system of district poor houses.

The house then took a recess to receive properly the Grand Army veterans, who filed in a little before noon and were greeted with applause. An exchange of greetings finished the morning.

Speaker Dore was in his chair today for the first time in a week, having been confined to his room sick.

Early in the day the house decided in favor of an adjournment till Tuesday and similar action was taken in the senate.

NOT VERY INDUSTRIOUS.

The Senate Imitates the House and Adjourns to Tuesday.

St. Paul, Feb. 24.—(Special to The Herald.)—The senate was not in an very industrious humor today. The early part of the session was given to very minor routine, followed by the discussion and passage, 41 to 11, of the Miller bill authorizing the presentation as evidence in courts of testimony taken before the railroad commission.

After receiving a delegation from the G. A. R. the senate adjourned till Tuesday.

The bills introduced were: Everett—Exempting veterans of Spanish war from garnishment.

McGowan—Extending rights of trial by jury and the right of appeal to district courts.

Somerville—Allowing sheriffs mileage and fees for attending to collect and return property tax where no property is found.

Loverud—To license hunters and fishermen.

NO OCCASION FOR ALARM.

Col. Ames of the Thirteenth Minnesota Sends a Dispatch.

St. Paul, Feb. 24.—(Special to The Herald.)—Governor Lind today received the following cablegram from Col. Ames, of the Thirteenth Minnesota volunteers at Manila.

Lind, St. Paul: The regiment is still being as provided for. I am not at all tempted. Unsuccessful. Capt. Robinson, Sergt. Sheppard, Privates Quinn, Wood, Ing, Ira Smith, Company C; Brinnell, Sullivan, Harfield, Pritch, Hartley, Company D; Baker, Company G; O'Brien, Company L; Frykholm, Company M; rounded slightly. Private Fehr, Company M, serious. All doing well. There is no occasion for alarm.

RECEIVER AT BISMARCK.

A. C. McGillivray Is Appointed By the President.

Washington, Feb. 24.—The president today sent the following nominations to the senate: Interior—A. C. McGillivray, register of the land office at Bismarck, N. D.; Erwin A. Johns, of Iowa, to be a commissioner to examine and classify lands.

THE AMER DEAD.

A Report to That Effect From Native Channels.

Bombay, Feb. 24.—There are persistent rumors among the natives at Peshawar that the amer of Afghanistan, Abdur Rahman Khan, is dead. The Indian government has not received any confirmation of this report, and it is thought quite probable that such information would come the more speedily through native channels.

SALARY BILL KILLED.

Wisconsin Assembly Passes a Law Referring to Physicians.

Madison, Wis., Feb. 24.—(Special to The Herald.)—Thirty-one bills reported by committee in the senate this morning shows the legislators are getting down to business. Eleven were reported for defeat, one of these being the bill to put sheriffs and deputies on salary. A joint resolution was introduced calling for a message by the retiring governor at the close of his term. The bill authorizing cities to levy an additional mill tax for school purposes was reported favorably in the assembly. The bill requiring registration of all physicians, including those who were practicing when the medical bill went into effect two years ago, was passed, 45 to 41, after amendment compelling the board to give registration to all reputable

physicians. The assembly passed the bill to a third reading to make the Evening Wisconsin the official paper by a vote of 55 to 25.

CAUSED A GREAT LOSS.

An Incendiary Fire Set in a Hotel in Ohio.

Cincinnati, Feb. 24.—A Times Star special from Ripley, Ohio, says: At 3 o'clock this morning what is supposed to be an incendiary fire was discovered under the main stairway of the Reinert hotel. The flames had made such headway that two guests of the hotel were cut off from escape by the stairway and found safely through a window on the second floor. The fire spread to the Sackett and Dale block adjoining, causing the great loss ever known in the city. Black, business houses, including the hotel, were involved in the loss.

CONTINUE TO ADVANCE.

Steel Billets Take a Jump of \$1 Per Ton.

Philadelphia, Feb. 24.—Iron and steel prices continue to advance. Steel billets have taken another jump from \$20 to \$21 per ton. Other forms of steel will continue to advance in harmony with billets. It is believed in some quarters steel billets will go to at least \$22.

THE ARMY BILL.

A Report That a Hitch Has Occurred in Its Progress.

Washington, Feb. 24.—Representative Hull, chairman of the house military committee, today, during the debate on the army appropriation bill, had read as a part of his remarks what he said probably will be the compromise measure to the refusal of the Democrats to accept the bill with the amendment to the appropriation bill.

While the morning that there has been a hitch in the progress of the army reorganization bill, owing to the refusal of the Democrats to accept that provision of the compromise bill which carries with it the increase of staff provided for in the bill.

While the morning that there has been a hitch in the progress of the army reorganization bill, owing to the refusal of the Democrats to accept that provision of the compromise bill which carries with it the increase of staff provided for in the bill.

Some senators hesitate to give up the provision for the enlistment of the troops in the islands, while others indicate determined hostility to this provision if it should not be changed.

CHARGE OF BRIBERY

In Connection With the Vote on the McCarrell Jury Bill.

Harrisburg, Pa., Feb. 24.—A resolution calling for an investigation of the charges of bribery in connection with the vote on the McCarrell bill was introduced in the house today by Mr. Koonz, one of the anti-Republican leaders. The resolution calls for a committee of three Republicans and two Democratic members to conduct the inquiry.

The charges are made in the Philadelphia Press today, and state that it is in possession of evidence that three members of the house were corruptly solicited to vote in favor of the reorganization of the army.

A WARM NUMBER

Congressman Johnson Turns Himself Loose on the Administration.

LIKE A PECKSNIFF

President's Boston Speech a Studious Misstatement of Facts.

Washington, Feb. 24.—Immediately after the reading of the journal in the house today an agreement was reached to limit general debate on the army appropriation bill to five hours, and it was taken up at once.

Mr. Johnson (Rep.), of Indiana, who made vigorous opposition to the army reorganization bill while it was before the house, secured thirty minutes in which he delivered a most remarkable and sensational speech, arraigning the administration in bitter terms for its alleged imperialistic program, and was carefully prepared and read from manuscript, quite contrary to Mr. Johnson's usual custom.

He referred in opening to the recent banquet at Boston, attended by the president and members of his cabinet. He paid his respects to Secretary Alger who, he said, had been retained in the cabinet despite his incompetency, owing to his contributions to the campaign fund in 1896.

Mr. Johnson said that he had the audacity, Mr. Johnson said, to repeat the baseless charges that the president had made against the Philippines. As Mr. Johnson proceeded his remarks were greeted with a storm of applause.

The president's speech at the banquet, Mr. Johnson declared, was the most dishonest and ever fell from the lips of a chief executive.

"Apart from his platitudes and professions of virtue, it was," he said, "a carefully devised and studious misstatement of facts."

The sensation Mr. Johnson was creating increased as he likened the president to Pecksniff. If the president really felt that Congress should determine upon the future of the Philippines, he asked why the president did not call Congress into a session and then keep his hands off.

He charged that the president coerced the senate into ratifying the treaty, that he would not permit a vote on the Bacon resolution, and only allowed the McGowan resolution to pass, in order to pass in order to lull the opposition of the country to sleep while he went ahead.

FRENCH REPUBLIC SECURE.

The French republic is in no danger, despite the loud talk and threatening attitude of the Parisian mobs, and the insults that have been offered to the new president by the fanatical anti-Dreyfusards, aided and abetted by the royalists. The republic rests upon a firm and solid foundation, and it will take more than the wild ravings of a Parisian mob to upset it. The great masses of the French people are in favor of maintaining republican institutions, and are averse to a revolution that would restore the empire and put a Bonaparte on the throne upon the throne. Besides this fact, there is no one of the claimants of the banished throne who has the ability or the means to undertake a successful coup d'état. The duke of Orleans is the most capable of the royalists, but he has no means. The Bonapartes are not even of mediocre ability, and not worth considering. Now need a military coup to be apprehended, because the army is without a strong leader.

The merchants, the mechanics and the farmers of France are in favor of the republic, and will stand by it. President Loubet comes from the middle classes, and enjoys their respect and support. And they are the controlling force in the French republic today.

IRON MANKATO FREE PRESS.

The Mankato Free Press, edited by a man who has attained some prominence in the Republican councils of this state, who once wanted to be state auditor but failed to get a nomination, and who later spent the world's fair year at Chicago at the expense of the state treasury, publishes the following:

"The Superior Telegram thinks Duluth has not been treated fairly by the people of this state. Does the Telegram mean by this that fair treatment would be to allow Duluth to stand with her hands in the state treasury, where she wanted to get them?"

The Mankato paper refers to the pig iron bounty bill, which it opposed. Yet that measure was not designed to benefit Duluth any more than the rest of the state. The representatives from this county voted for the beet sugar bounty although it was likely to benefit Mankato and the surrounding district much more than Duluth. Nor did anyone here claim that Mankato would thus be enabled to "stand with her hands in the state treasury;" yet the assertion would have been as correct as the reference now made by the Free Press to Duluth and the proposed pig iron bounty.

But Editor Hunt is no more ignorant on this subject than is the editor of the Waseca Journal, who says: "The Minnesota house did a sensible thing last week when it promptly killed the Laybourn iron bounty bill by a decisive vote. This was a big job engineered by Duluth parties in the interest of that city and the owners of practically all of the iron land in the state. The iron industry of this state has developed too far to need bolstering up with a subsidy." It would be difficult to condense more misstatements into a paragraph.

Will the Waseca paper inform the people of Minnesota where the iron industry of this state is located? The fact is that the manufacture of iron has not been started in this state. We mine iron ore, but we send it East instead of converting it into pig iron at home.

The benefits to Minnesota—to the whole of Minnesota—of securing the establishment of blast furnaces, steel plants and correlative industries can hardly be overestimated. It is extremely difficult, however, to attract such industries to new locations, and it is with the idea of providing an inducement that the bounty on pig iron smelted within the state is proposed. There would be no good reason why Mankato and Waseca should not have iron industries if blast furnaces were situated here to smelt the ore and thus provide the pig iron which is the raw material for iron manufactures.

State Auditor Dunn says in the Princeton Union: "The governor has not said he would veto an iron bounty bill, neither do I believe he would veto such a bill if it contained proper limitations. The state had better expend several hundred thousand dollars in building up the iron industries of St. Louis county than to provide means for the erection of a normal school at Duluth. The establishment of such a school at Duluth would be of immense benefit to that city and indirectly to the whole state, while at present there is no pressing necessity for another normal school."

GANG OF SMUGGLERS

Many Swiss Watch Movements Are Brought Here Without Paying Duty.

New York, Feb. 24.—Local customs authorities say that the seizure last week of some 1200 Swiss watch movements and one-half that number of gold cases in the office of A. W. Levy, of this city, points directly to the existence of an organized gang of smugglers which they are in hopes of soon apprehending.

The movements and cases taken from Levy's office were appraised today and valued at from \$8000 to \$10,000, but this represents only a small portion of the total value of the movements smuggled into this country during the past year.

The attention of the customs officials has been called to the matter by jewelers and dealers, who complained that Swiss movements were being sold at prices that defied honest competition. Investigation by the customs officials proved that the watches found in Levy's office were not entered for duty at this port, Philadelphia or Boston.

They believe that the movements were smuggled across the border from Canada, after being imported to Canada by the attention of the customs officials. Investigation by the customs officials proved that the watches found in Levy's office were not entered for duty at this port, Philadelphia or Boston.

All the watches seized bear the inscription on the dial "Springfield Watch Company." Along the inner edge and cleverly hidden when the movement is in its case is the mark, "Made in Switzerland." This is contrary to the marking law, which specifies that the name of the country of origin shall appear in the case.

The transportation figures show that not all of the Spanish soldiers have sought repatriation. It appears that some 2000 must remain in Cuba with the determination to stay there. And they will probably be good Cuban citizens.

One of the News Tribune's Republican editors entertained and participated in a Democratic caucus last evening. He ought to be read out of the Republican party at once.

Some of the Republican country newspapers that are calling Governor Lind's veto of the sugar bounty appropriation bill "a fool veto" are making themselves very ridiculous.

The New York Sun has been very partisan since it joined the Republican party, and it is kept busy trying to prove that almost all the political evils it formerly held are not correct.

Several amendments to the forfeited tax law have been introduced in the legislature. The amendments might help a little, but the absolute repeal of the law is what is needed.

CONFIRMED AGAIN.—Washington, Feb. 24.—Secretary Alger returned to Washington today, and when asked concerning reports that he intended to resign from the cabinet, said that he had never entertained such an idea, and that, so far as his own disposition was concerned, he would remain in the cabinet until the end of the present administration.

INCREASED EXPENSE.—Washington, Feb. 24.—The secretary of war has sent to the senate a tabulated statement showing the increased expense of the recent advancement in grades of the officers of the army. The secretary recommends that the advancement in grades provided for by the act of July last should be discontinued upon the termination of the war with Spain. He says the advancements are unnecessary; that they are a needless expenditure in favor of the quartermaster's and subsistence departments.

NEW MILLING COMPANY.—St. Paul, Feb. 24.—The Bay State Milling company, which has plans for the erection of a new mill, has secured the incorporation with the secretary of state, capital, \$125,000; incorporators, R. A LATE OPENING

Prospect That Navigation Will Not Be Resumed Before May 1.

ICE AT THE SAULT

It Is the Heaviest Known There For at Least Ten Years.

Vessels are beginning to figure on the probable time that navigation will open in the spring, and the general opinion seems to be that it will not be as early as usual. Recently Capt. J. T. Rose wrote to the Harvey Marine bureau, which manages the line from the Sault, asking about the ice there and the prospects for the opening of the Sault in the spring. A reply was received in which it was stated that there is more ice in the river and at the foot of Lake Superior than there has been in ten years or more, and the opinion there is that it will be impossible to get boats through before May 1. Capt. Rose also heard from the Chicago agent of his company, who says that there is more ice than usual at Chicago, and that it is not likely that there will be free navigation there before May 1.

Nothing definite has been heard from the straits of Mackinac, but it is understood that the ice is heavy there also. At Duluth there is likely to be little hindrance to the opening of navigation, as it is not probable that any large body of ice will form in the lake to replace that which went yesterday. The ice in the bay is heavy, but it will probably soften up before it is necessary to propel boats through it. Elsewhere on Lake Superior there is much ice, but it is not so heavy as a few weeks ago. Thunder bay is likely to be well enclosed, and it is probable that the ice will be broken up much later than usual this year.

There is usually a good deal of betting on the date of the opening of navigation, and this year is no exception. So far as reported, there have been no bets that navigation would open earlier than May 1. Those reported run from April 15 to May 1. The average date for the opening of navigation is April 25, so May 1 would be only five days later than the average.

EVANGELIST SCHIVEREA.

Strong Talk From the Text "Almost Persuaded."

Evangelist Schiverrea talked last evening at the Armory from the text Acts xvi. 28: "Almost thou persuadest me to become a Christian." The armory was crowded as usual. Mr. Schiverrea said that the language given in the text was taken up by the present legislature, and his appointment as chairman of the joint committee to inquire into the question, he has been wrapped up almost wholly in the issue. Yesterday he introduced a resolution asking congress to pass a national inspection law.

At the morning session of the house Senator Arnold's bill providing for a national inspection law was introduced. It was a bill to amend the act of March 3, 1879, relating to the collection of taxes on real estate, and to provide for the collection of taxes on school lands for the purpose of clearing them of noxious weeds. Although the bill was introduced for the purpose of clearing them of noxious weeds, it was introduced for the purpose of clearing them of noxious weeds.

Senator Marshall Thinks National Grain Inspection the Only Solution.

NORTH DAKOTA.
Bismarck, Feb. 24.—Senator Marshall has spent a great deal of time and attention in an effort to arrive at a solution of the grain inspection problem more satisfactory to the people of this state. WHY IS ELECTRIC LIGHT BEST?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Prof. Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric light work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

THE ARMY INCREASE

Understanding Was That All Increase Shall Cease July 1, 1901.

NO VOTE ON MONDAY

A Hitch Occurred Because the Time Limit Was Left Out.

Washington, Feb. 25.—There was a little hitch in the agreement on the army bill today, Senator Gorman insisting that the understanding was that the increase made should cease July 1. This is not provided for in the bill reported and an amendment has been prepared and will be offered adding another section making definite provision that all increases shall cease on the date named and the army shall be reduced to the number of officers and men provided for previous to the war with Spain. The additional cadets appointed will be exempted in this provision. The present understanding is that the army bill will be passed by the senate today.

PRESSED FOR TIME.

The National House Will Meet at 11 O'clock a. m. Hereafter.

Washington, Feb. 25.—Owing to the pressure of business the house met at 11 o'clock today. The senate bill granting a right-of-way through the Nez Perce Indian reservation to the Clearwater Short Line railroad was passed, also the senate bill to compensate certain persons for private property in the Yellowstone park.

IN THE SENATE.

Washington, Feb. 25.—At the opening of today's session of the senate bills were passed as follows: Amending an act entitled "An act to allow the return of free duty, certain articles exported from the United States for exhibition purposes," a committee amendment providing that the law shall apply only to foreign born animals for circus purposes.

Mr. Hammon of North Dakota offered an amendment, which was agreed to, providing that wheat imported by one person, providing for a building for the use of the postoffice as an office for the superintendent of the Hot Springs reservation and other civil officers in the city of Hot Springs, Ark.; authorizing certain persons who have intermarried with Cheyennes to sue for their interest in certain money of the tribe from which they were excluded; authorizing the construction of a bridge across the Monongahela river at Morgantown, W. Va.

ARE VISITING NASSAU.

St. Augustine, Fla., Feb. 25.—(Special to The Herald.)—The fact that Nassau, the capital of the Bahamas islands, is but ten hours' sail from Miami, coupled with the knowledge that the British city and the surrounding country is wonderfully attractive, has induced hundreds of people from the north and west to make the pleasant journey this season.

INCREASE OF PENSION.

Washington, Feb. 25.—(Special to The Herald.)—An increase of pension from the army bill at 3 o'clock on Monday failed. Senator Cockerell then made a speech in favor of the bill.

TWO PERSONS KILLED.

New York, Feb. 25.—A message received at police headquarters says that a dispatch to Gen. Gomez saying that two persons were killed.

SUSPECTS ARRESTED

Prisoners Taken From Houses In Suspected Districts of Manila.

MORE MEN WOUNDED

Six In Gen. Harrison Gray Otis' Brigade Hit Since Midnight.

Manila, Feb. 25, 2:35 p. m.—The military police have raided several suspected houses in various districts, capturing small bodies of twenty to thirty prisoners in each place. This and the 7 o'clock outbreak are effectively dispelling the fears of a threatened outbreak of the natives, who do not dare, singly or collectively, to appear on the streets after dark. The feeling in the city has decidedly improved.

BURKE IS GUILTY.

Judge Caldwell Evidently Believes Judge Dellenbaugh Equally at Fault.

Cleveland, Feb. 25.—State Senator Vernon H. Burke was today found guilty in the circuit court of the first specification in the charges brought against him. Judge Caldwell read the findings of the court.

NO OCCASION FOR ANXIETY.

Gen. Otis Says the Situation Is Well in Hand.

Washington, Feb. 25.—The war department today received the following: Manila, Feb. 25.—Adjutant General, Washington: Condition of affairs quiet; progressing favorably. Anxiety need not be felt in regard to the situation. Will send small body of troops to Cebu, where navy took quiet possession.

WHAT DID DEWEY MEAN?

Administration Alleged to Believe He Wants to Impress Natives.

Washington, Feb. 25.—The dispatch from Admiral Dewey speaking of possible reasons for sending troops to Manila at once is still the subject of general discussion here. But apparently the administration is satisfied that it understands exactly what the admiral meant when he used the term "political reasons" for it was stated positively at the navy department that no inquiry had been addressed to the admiral on the subject, and that he would not be called upon for a further explanation. This means that the interpretation placed upon the phrase by the administration is exactly that conveyed by Secretary Long yesterday, namely, that the big ship is regarded as necessary to impress the Filipinos, not only on Luzon, but those on other islands of the group with the overwhelming power of the United States navy, for it is said at the department, in the dense ignorance in which these people live, they can only be impressed by personal observation.

BIFFIE NOTE FROM DEWEY.

Washington, Feb. 25.—Secretary Long said at 12 o'clock that the only dispatch he had received today from Manila was the one announcing the capture of Admiral Dewey that the Petrel had sailed for Cebu.

POSITION OF SCHLEY.

Friends Will Make No Further Fight Against Sampson.

Washington, Feb. 25.—The understanding among Admiral Schley's friends now is that they will not further press the fight over the question of Admiral Sampson's advancement over Admiral Schley. They will, therefore, agree to let the nominations be confirmed without much, if any, more debate, depending upon future legislation to place Admiral Schley before the country in the position which they believe he should occupy. They propose to ask that provision be made for the appointment of two vice admirals, with the understanding that Messrs. Schley and Sampson shall be nominated to the two places thus created. Admiral Schley told his senatorial friends that he was willing to trust his fortunes to their care.

GOMEZ IN HAVANA.

Will Call on Gen. Brooke and Be Banqueted.

Havana, Feb. 25.—Gen. Maximino Gomez probably will call on Governor General Brooke this morning and will attend a meeting of the Cuban assembly at Mariama this afternoon.

The Cuban commander will be banqueted by the city council at the Tacón this evening. Two hundred and fifty guests will be invited.

The uniform of a Cuban general which Gomez wore yesterday on his visit to Havana was presented to him at Mariama by the Spanish school teachers of Havana and the horse he rode was the gift of Gen. Torres, who is now in Jamaica.

The citizens of Pinar del Rio have sent a dispatch to Gen. Gomez saying that they accept his policy and begging him to visit their city. They have also

Democratic Congressmen to Decide Upon Policy as to the Philippines.

Washington, Feb. 25.—A caucus of the Democratic members of the house has been called for next Monday evening.

CHICAGO FLOUR MAKERS.

Want a Rate Proportional to That of Minneapolis.

Chicago, Feb. 25.—The Illinois railway and warehouse commission will consider next week a protest made by Chicago millers, who ask that rates on flour from Chicago to the seaboard be put on a proportional basis of Minneapolis export rates.

SITUATION SERIOUS.

Lancaster, Pa., Feb. 25.—Latest reports this morning give no material change on the Susquehanna river. The high gorge at Truxey Hill is still intact, and the ice is packed solidly from the Columbia dam, a distance of six miles. There are two other obstructions, the tracks of the Port Deposit railroad buried deep beneath the snow and ice at the mouth of the river, and the river was twenty-five feet above the low water mark, but was gradually falling.

THE ISLAND OF CEBU.

Washington, Feb. 25.—Admiral Dewey called the navy department today that he had sent the gunboat Petrel from Manila to Cebu. It is the purpose of the admiral to establish the sovereignty of the United States at the capital of the island, which is a populous town of 35,000 inhabitants.

PASSENGERS TRANSFERRED.

Ponta Del Gada, Feb. 25.—The passengers of the Cunard line steamer Pavonia, which was blown into St. Michaels, Azore islands, in a disabled condition on Feb. 18, by the steamer Volvolston, have embarked on board the Portuguese steamer Vega, from Lisbon, on Feb. 17, via this port, for New York. The Vega leaves for New York this evening.

MISS REEVES ENGAGED.

London, Feb. 25.—Miss Ada Rehan, the leading lady of Augustin Daly's company, has been engaged, with Mr. Daly's permission and approval, to create the part of the heroine in the next Drury Lane drama.

A COAL OUTLET.

New York, Feb. 25.—The Southern railway has absorbed the Mobile & Birmingham railroad by a lease for 99 years. The Southern has thus secured its first direct outlet from the great coal and iron fields of the Birmingham district to the gulf and will precipitate formidable competition with the Louisville & Nashville railroad.

A BALLOT IN UTAH.

HONORS FOR REES.

Topel, Kan., Feb. 25.—Lieut. Com. C. P. Rees, U. S. N., who was signal officer with Admiral Dewey's fleet and who stood upon the bridge with the admiral during the battle of Manila, has arrived in Topel to visit relatives, accompanied by Mrs. Rees, and was shown marked honor by Governor Stanley and the Kansas legislature. The naval officer was received by the governor and both branches of the legislature and spoke briefly before both house and senate.

TO SETTLE A STRIKE.

Washington, Feb. 25.—A caucus of the Democratic members of the house has been called for next Monday evening.

CHICAGO FLOUR MAKERS.

Want a Rate Proportional to That of Minneapolis.

Chicago, Feb. 25.—The Illinois railway and warehouse commission will consider next week a protest made by Chicago millers, who ask that rates on flour from Chicago to the seaboard be put on a proportional basis of Minneapolis export rates.

SITUATION SERIOUS.

Lancaster, Pa., Feb. 25.—Latest reports this morning give no material change on the Susquehanna river. The high gorge at Truxey Hill is still intact, and the ice is packed solidly from the Columbia dam, a distance of six miles. There are two other obstructions, the tracks of the Port Deposit railroad buried deep beneath the snow and ice at the mouth of the river, and the river was twenty-five feet above the low water mark, but was gradually falling.

THE ISLAND OF CEBU.

Washington, Feb. 25.—Admiral Dewey called the navy department today that he had sent the gunboat Petrel from Manila to Cebu. It is the purpose of the admiral to establish the sovereignty of the United States at the capital of the island, which is a populous town of 35,000 inhabitants.

PASSENGERS TRANSFERRED.

Ponta Del Gada, Feb. 25.—The passengers of the Cunard line steamer Pavonia, which was blown into St. Michaels, Azore islands, in a disabled condition on Feb. 18, by the steamer Volvolston, have embarked on board the Portuguese steamer Vega, from Lisbon, on Feb. 17, via this port, for New York. The Vega leaves for New York this evening.

He finally led me in a climatic parlor car with a smiling "I hope I will have a most pleasant journey, ma'am." Perhaps you may think it was my charm of manner. I think it was my smile and my big pocket. And here let me say a word in favor of the much-abused "Tip." Oh, yes, I have a word to say for the "tip," how holy horror! I know it is everything to the traveler, and I have no objection to the lone woman traveler. It was first discovered by man for the fur-trader, the soldier and the sailor, the port, and I really think we ought to thank him for it. Woman is incapable of the sickening trick of paying for various other things, but if she can't pay for a ride, she can't pay for the "tip," and she can't pay for a free use of the "tip." Peace and comfort and the porter will be hers. The "tip" is the only way men who will go through a sea of traveling troubles with an assured air, but I

Just before reaching Atlanta we passed through Cartersville, the home of the famous Henry Carters, who built little stilt-like brick, wood or stone. This is to allow the rain to blow under the stilted floor and not into the house. The cotton fields begin to appear. At Chattahoochee the train skirts around the base of Lookout mountain, where the famous Lookout tower which is a large and beautiful hotel. Just Four Years Ago.

Havana, Feb. 24.—Four years toted the revolution in Cuba, which has just ended in the disappearance of Spanish rule from this island. The triumphal arches have been erected in the different quarters of the city, bearing the names of the various regiments in the air bands are playing, and General Ludlow, governor of the United States, has ordered the Cuban troops into the city with General Maximo Gimeñez, who is to receive for his triumphal entry into Cuba capital.

General Gimeñez will also receive General Gortázar, who is accompanied by Gortázar, with military honors, and General Brooke desires to show the Cuban capital in the most favorable manner. He will attend a charity ball this evening at the Teatón, the proceeds going to the orphanage.

The firemen will give a fire drill at their house at Central Park, and the city will be given a banquet tomorrow by the city.

The Cuban assembly meets tomorrow under the presidency of Gen. Gortázar, and it is expected that the members will be able to do business.

berries have been killed everywhere in the state. But the August fruit of this year was shipped last year. Advice indicates that the state will have a bumper crop.

The usual fruit season for this section is two weeks later than in South Georgia, Georgia, and Florida, and even to California, excepting for its liability to frosts. The fruit itself is usually small, round, and green, with few leaves and bunches and graces. The Florida peach, a dark rose color, weighing twelve ounces, is the best.

There are three genuine vine grapes, but the Ives is the choice for making claret wine, and the California is the best for table use. President Wricket of the San Jose (Cal.) Fruit Packing company thinks that the vine variety is superior in flavor and says there is no place like this state for growing it. He sends the train loads of grapes to California and says this is the state every year, and thinks that every bit ought to be raised and carried to the foreign market.

There is a chance for some Northerner with lots of push and some capital, to raise this fruit for 1900. The population of this section is 1,000,000.

THE JUNIA'S SAY.

Claim That American Soldiers Defying Their Officers.

Hong Kong, Feb. 25.—The Filipino Junta publishes a venomous anti-American attack in part as follows:

"Panic and anarchy reign at Manila. Trade and business is paralyzed. Evils are everywhere. The American authorities are afraid to exert authority over the recalcitrant soldiers. While fighting the soldiers are defying their officers and are protesting to the front to see what they will do. They are defying the American government and are demanding a wanton bombardment of the home of the foreign consul (the name is given). They are demanding compensation for damages, hoping to avoid punishment. The escape of the consular family is a disgrace to the American government."

The manifesto alleges that Maj. O'Quinn is "incapable of filling his position as commander of the American garrison" and that the American soldiers, des-

BURNED OUT.
Minneapolis Tribune Plant
and Building Totally De-
stroyed By Fire.

Coming to Avenger the Death of a Countryman—Amos Shephard's Ride.

Nothing was saved, mailing lists, files, books, papers, and even the most costly presses and type and linotypes were destroyed, and a large part of the furniture and outfitting of the building was lost. The fire started in the basement where the first started. Fortunately not a single life was lost nor a man injured. The fire broke out in the early morning of Nov. 30, 1889, the Tribune building, corner of Fourth street and First street, was completely destroyed, and several newspaper men were injured or killed in the flames of the building.

The Times and Journal building, which was a new structure, was not in grave danger tonight, being on fire several times, but more by the efforts of the fire department than by the flames from the department the flames were extinguished.

The first alarm was issued this morning at 12:15.

As usual, both the Times and Journal have given their afflicted brethren all the assistance they could. The Journal's efforts, as regards to the Tribune company is the difficulty in replacing the linotype machines and setting type. But the management is not cast down and a way out of the difficulty will be found. The Journal is building immediately adjoining the Tribune on the west and occupied by George Benz & Sons. The building is almost totally destroyed and the loss is heavy, as a large stock of type was carried. The big department store, which is situated across the alley was on fire, but iron shutters saved it. Following is as accurate a list of the goods as could be secured last night:

At midnight departed on his errand. He had hardly left the jail before the bulleting began, but in the confusion no one could do it. He was burned on the ground, and the prisoner perished in the flames.

In the morning a sensation, of course, but it especially aroused the members of the prisoner union. They were indignant. They took to the mines at Soudan. They soon became firmly impressed with a belief that they could do it. They set fire to the building with intent to destroy the company, and the men were taken out of the building. The quiet came over to Tower, a few at a time and purchased about all of the firearms in the city. They were then sent back to Soudan to hide the

ARCHBISHOP OF IRELAND REPLIES.

Thanks the Pope for His Letter to Cardinal Gibbons.

Rome, Feb. 23.—The Observatore Romano today publishes the text of a letter from the Archbishop of Ireland to the pope, regarding the pontiff's letter to Cardinal Gibbons on "Americanism." The archbishop thanks the pope for this proof of his esteem and love for the United States. He says that now the pope has shed light on the situation, misunderstanding will cease. "For," he says, "it is not the fault of the pope, but some desire to conceal under the name of Americanism and define true Americanism, such as understood by

Continuing the archbishop says: "The distinctions and explanations contained in the apostolic letter are so clear and precise that the peril that was not understood by all of the people of the United States, but which I thought was

to be feared, can no longer present itself. In view of the extraordinary confusion of ideas and controversies raised, especially in France by the life of Father Hecker, there was need for the supreme pontiff to make his voice heard in order to enlighten and tranquilize

The people's minds. I repeat all the urgency of my soul. I repeat all the opinions the apostle: let repudiate and condemn those false and dangerous opinions of boldness and belief says: "I repudiate the name of Americanism."

"I repudiate and condemn them categorically, like the boldness with as much promptitude and joy inasmuch as my Catholic faith and my comprehension of the teachings of our Holy Father have not permitted me to entertain such extravagances."

"The whole episcopate of the United States repudiates and condemns in the name of their flocks, are ready to repudiate and condemn them. We cannot but be indignant against those who, as bishops, our faithful and our nation as to designate by the name of Americanism such errors and excesses."

KILLED BY ACCIDENT.

Two Englishmen and Another Man Shot by American Troops.

Manilla, Feb. 25.—Despite the three days' truce, the hostilities of the Filipinos have not been suspended. The English and American troops in the city of Manilla were not disturbed last night.

There was not a single incident worth recording from the time when streets were cleared until day dawned. The city was very quiet along the line outside, except occasional volleys from bunches of guerrillas.

"Most holy father, they are enemies of the church in America and they are enemies of the church in England, and there exists or that desire to establish a single lota from the holy universal church, recognized by other nations as the true church, and to give them the church, recognized as the infallible guardian of the preservation of the faith. Archbishop Ireland concludes by bestowing the pope to accept his assurances of devotion and to give him the apostolic blessing.

Archbishop Ireland has gone home very tired.

HONOR FOR QUARLES.
Milwaukee, Feb. 25.—Three hundred guests, including many distinguished citizens of Milwaukee and leading representatives of cities throughout the state attended a banquet last night given by the Merchants' and Manufacturers' association of the city. CHAPELLE CRITICIZED.—Santiago de Cuba, Feb. 25.—Archbishop Chapelle, of New Orleans, the papal legate here, in Cuba charged with the mission of placing the Roman Catholic archdiocese of Santiago de Cuba under the control of the local press, which says in effect that whereas the archbishops under the Spanish regime were "obedient to the pope," the archbishops under the present regime "obey the queen regent, now under the Spanish regime they say 'Obey the pope.'"

WAS NEVER BETTER.

**The Business Condition Now
Prevailing Is Good With-
out Precedent.**

New York, Feb. 25.—R. G. DUN & CO. announce this week's review of trade activity. The situation is without precedent. Business has never been better on the whole, and in some great industries the gain is astonishing. Exports surpass last year's as much as imports, though the excess over imports then was heavy. Failures were smaller than of any year and smaller than of any year of the past. Stocks are stronger. The average of the five railway securities are a little higher, and for trusts much more, owing to the rise in the price of tobacco and tobacco. Payments through exchanges show a greater volume of business than in any year of the past, and probably one-half larger than in the most prosperous years. The outgo of breadstuffs and cotton continues heavy. But there is no reason to fear that such prosperity cannot last.

Popular Impressions have to be reckoned on, because they are the basis of the market. Yet at every point of danger except one the signs are in every respect favorable to the country. The price of pig iron since Jan. 1 and 1.5 per cent. higher than last year. The price of steel indeed raised a question whether the exports of such products may not be entirely stopped, as they are not, the balance due this country would still be paid. The price of cotton has advanced 10 per cent. at a time when nearly all the products of the cotton industry are in production until July 1 or later cause many to refuse to contract beyond that date. The price of wheat has advanced 10 per cent. under such circumstances may prove the one thing needful to sober buyers and to the establishment heretofore idle. While the price of wheat has advanced 10 per cent. still in reserve, the demand now pressing for cars, vessels, bridges, building materials, etc., has not been expected rise in prices. The best sign is that the great producers appear to be satisfied with the price of their products on foreign markets, although just now unimpaired by the war or other distresses.

Failures for the week have been 10 in the U.S., 10 in Canada, 10 in the U.K. and 40 in Canada against 30 last week, says Ironsteel's says.

In cotton goods, as in iron and steel and a number of other products, active export markets are the cause of the unquestionable improvement that has occurred in the last three months. The most noticeable improvement is in special marked strength, print cloths, ginghams and grey cottons all sharing in the price advance.

Lumber is reported quiet at some markets, as a result of the markets for prices unchanged except where quoted. The lumber market for the week numbered a gain of 60 over last week as compared with a rise in 1937 of 1937, 228 in 1937, 21 in 1936 and 234 in 1935, 228 in 1937, 21 in 1936 and 234 in 1935, 228 in 1937, 21 in 1936 and 234 in 1935.

G. A. R. OFFICERS.
Judge Searle of St. Cloud Chose
Department Commander.

Deposed. Capt. P. E. The state enactment of the G. A. R. yesterday elected a St. Cloud, Minn., as the new commander; Gideon S. Ives, of St. Peter, for vice commander; Capt. W. H. Harris, of Caledonia, junior vice commander.

The report of the grand jury showed a total loss of \$23. Relief was furnished to 115 persons, and the grand jury recommended the department was 2 percent. Whole number of deaths reported for the year 1913.

The department reported that twenty-one persons failed to report. Unpaid dues were \$600 dropped for this cause in 1912, and in 1913 \$700. He recommended that the membership in the department be restored to full membership on payment of six months dues.

FOR QUARTERMASTER GENERAL.

CLAIM OF PRIORITY.
Cumberland, Wls., Feb. 25.—M^{rs}. John Dorr of this city was the first in the state or section to use the United States patent for thawing out frozen water pipes by electricity. He conceived the idea that this could be done and worked out the plan several years in advance of the Madison professor. Frozen bas used this plan successfully. Drorr water pipes in this city which were frozen and could not be reached in any way without great expense for excavating. He uses a current of 160 volts and takes about four minutes to do the work.

GREAT HEAT.
The heat has been so great in Melbourne, Australia, lately that the asphalt tracks and streets have been melted and completely ruined, and cycling has been out of the question.

A Well Known Consulting Engineer Furnishes the City With Some Ideas.

Cost of Brick and Asphalt.	The Opinions of Many Cities.
----------------------------------	------------------------------------

The city engineer has recently received from Samuel M. Gray, a contractor of Chicago, Ill., R. 1, said to be one of the best authorities in the country, a chart containing some very interesting data as to brick and asphalt paving. Sometime in the course of fifty years or so, Duluth will have to solve the problem of how to pave, and hence the information furnished by Mr. Gray may prove interesting to the younger generation at least. Mr. Gray gives the answers to questions proposed by him the authorities of a number of cities, namely, among other things, to the cost of asphalt and brick paving, time their pavements had been laid, intervals at which repairs were made and which was preferred. Of particular interest to the city engineer is the question which kind of paving was preferred, fourteen declared for asphalt, five reported that both were satisfactory, three that opinion was divided and one of these (Minneapolis) that asphalt was preferred. The city engineer, two reported that neither had been fairly tested yet, one that brick was preferred on the whole, one unqualifiedly for brick, one that brick was preferred "except for the noise," and one that asphalt was preferred for silence and brick for business streets.

Of these cities, twelve reported that they use asphalt for all sorts of traffic with satisfactory results, three that asphalt and brick are both used for all kinds of traffic and in two of these opinion is divided, while brick only is used in one. Strange as it may seem, the use of the brick pavement is the more noisy, it is reported as being preferred for residence streets by three out of seven cities that reported solely as to the pavement used in such streets. It was stated by one of the three, however, that brick had not been tested as long as the asphalt, and another of the three mentioned the noise as a drawback.

The time is approaching when the lambs are coming to the shearing and the sheavers are at the door. The lambs referred to are the woodsmen. They will flock to the sheavers as the sheavers flock to the sheavers as they are beginning to arrive already, and the Poverty will have its haleyoon of the sheavers. It is an era of these men in that quarter, and in anticipation of it the harpies are busy. They are busy in getting their backs and help him to spend his money, and take a goodly share of it. They are busy in the burden of spending it themselves if opportunity offers. They are prolific and they are busy in the same way. These gems cannot be imparted to a dog or a paste. COOKED SHIPHATES. The tale of a horrible experience among the Solomon Island cannibals comes from a young man who says he and his shipmates cooked and eaten.

The young man, who was new to the land life in the islands, was from the Santa Isabel German Solomon group.

The schooner reached her destination at night and the two dozen natives on board came from the shore into the boat.

They seemed to come on the usual friendly trading mission, but when the natives saw the shipmates they began to procure goods. Thirty natives sprang forward and began to grab the goods of the sailors with their ugly weapons.

All but three of the natives were killed by the sailors themselves in a swimming ashore. They were killed with spears and knives.

The two survivors were then bound and taken to the shore where they were brought away from the ill-fated

The cannibals allowed their prisoners to eat the food which they had brought with them. The feast was prepared, and the bodies of the natives in the boat were fired. The natives in the meantime were not idle. A dance fire was brought out on the shore, and the natives, to the accompaniment of a low, earthy music, were made an offering of themselves. Fortunately for the two living visitors, the natives were not ashore by the natives, who drank their fill of the beer, and were consequently all stupidly drunk, and the two visitors were able to free themselves from the toasts that bore down upon them.

Report That the Duluth, Missabe & Northern Road Will Extend Its Line to Ely During This Year.

[illegible]

WINE OF CARDUI

NEEDED IN EVERY HOME.

I am 47 years old, and have been bothered with nervousness, palpitation of the heart and smothering spells, for two or three years. By using several bottles of Wine of Cardui my health has been greatly improved. This wonderful medicine ought to be in every house where there are girls and women.

MRS. C. J. WEST.

McKREE'S
Wine of Cardui

In almost every home there are girls or women who are not well. The list of "female troubles" is so long that no family is fully exempt. It seems like modern ways of living are wrong somewhere. We dress improperly. We eat highly seasoned food. We keep late hours. We work too hard. Nature will not brook neglect or abuse. The first thing we know our mothers, wives and sisters are attacked in their most sensitive and delicate organism. They have falling of the womb, leucorrhoea, headaches, backaches, pains all over the body. Their faces show it. Their wasted forms show it. For conquering "female troubles"—for making sick women well—Wine of Cardui is almost infallible. It is needed in every home. With its aid girls pass on to vigorous and beautiful womanhood; wives become mothers with the least possible distress and pain, and late in years go safely through the "turn of life" without danger and with little suffering.

DRUGGISTS SELL LARGE BOTTLES OF THE WINE FOR \$1.00.
